22	31/12/2021	14/01/2022	HB	<p>Amend Schedule 10 – General Rural (Coded) zones by inserting a new entry for Lot 100 (No. 1492) Bennies Road, Cowalla with conditions.</p> <p>Amend the Scheme Map by including Lot 100 (No. 1492) Bennies Road, Cowalla in the General Rural – Coded zone and allocating General Rural codes of GR20 over the portion of the land north of Bennies Road and GR30 over the portion of the land south of Bennies Road, as shown on the Scheme Map.</p>
28	25/10/2024	7/11/2024	GL	<p>Include an A28 notation over the relevant part of Lot 8021 Waterville Rd, Neergabby and introduce into 'Schedule 2 – Additional Uses' the following:</p> <p>No 28, Part of Lot 8021 Waterville Road, Neergabby – Industry – Light, 1. Development is not permitted unless the local government has exercised its discretion by granting development approval. 2. Development approval is to be time limited to an initial period of 10 years. Further time extensions are not to exceed 5 years and will be subject to an assessment of the development against the planning framework as it applies at the time. 3. The development is to remain as at secondary use to the primary agricultural use of the land at all times. 4. The development is restricted to the assembly of modular/transportable buildings, associated structures and any incidental operations to the satisfaction of the local government. 5. The development area is to be located in one contiguous area within the lot that meets the following criteria: a. partially located on land that is not required for the primary agricultural use of the lot; b. does not conflict with any area if consolidated remnant native vegetation or habitat of the Carnaby Black Cockatoo; c. is not visible from any adjoining lot or public road; and d. is set back a minimum of 500, from any lot boundary. 6. The development area is limited to a maximum area of 3 hectares. 7. Access and egress for the development is limited to Waterville Road. 8. The presence of the development is not grounds to progress subdivision of the land.</p>
23	11/02/2025	20/02/2025	GL	<p>Modify the Scheme Maps by introducing the Rural Living RL2 over Pt 9501 Cheriton Rd, Gingin.</p>

Preamble

AMD 14 GG 08/04/16

This Local Planning Scheme of the Shire of Gingin consists of this Scheme Text, the deemed provisions (set out in the *Planning and Development (Local Planning Schemes) Regulations 2015* Schedule 2) and the Scheme Maps. The Scheme should be read with the Local Planning Strategy for the Shire.

Part 2 of the deemed provisions sets out the Local Planning Framework. At the core of this Framework is the Local Planning Strategy which sets out the long-term planning directions for the local government, applies State and regional planning policies and provides the rationale for the zones and other provisions of the Scheme. In addition to the Local Planning Strategy, the Framework provides for Local Planning Policies which set out the general policies of the local government on matters within the Scheme.

The Scheme divides the local government district into zones to identify areas for particular uses and identifies land reserved for public purposes. Most importantly, the Scheme controls the types of uses and development allowed in different zones. There are particular controls included for heritage and special control areas. The Scheme also sets out the requirements for development approval, enforcement of the Scheme provisions and non-conforming uses.

Scheme details

The Shire of Gingin

Local Planning Scheme No. 9

The Shire of Gingin under the powers conferred by the *Planning and Development Act 2005* makes the following Local Planning Scheme.

Contents

AMD 14 GG 08/04/16

- Part 1 **Preliminary** — sets out the Scheme title, responsible authority for implementing the Scheme, definitions used in the Scheme, Scheme area, contents, purpose, aims and relationship to other Schemes and laws.
- Part 2 **Reserves** — sets out the reserves which apply in the Scheme area and related provisions.
- Part 3 **Zones and the Use of Land** — sets out the zones which apply in the Scheme area and the uses which may require approval or may be prohibited.
- Part 4 **General Development Requirements** — sets out the planning requirements which may apply to a particular use or development in a zone.
- Part 5 **Special Control Areas** — sets out particular provisions which may apply in addition to the zone requirements and generally concerns landscape, environmental, built form, and land and site management issues.

Deemed Provisions for Local Planning Schemes	81

PART 1 — PRELIMINARY

1.1. Citation

1.1.1. The Shire of Gingin Local Planning Scheme No. 9 (“the Scheme”) comes into operation on its Gazettal date.

1.1.2. The following Scheme is revoked —

Shire of Gingin Town Planning Scheme No. 8 Gazetted on 20 December 1991.

1.2. Responsible Authority

The Shire of Gingin is the responsible authority for implementing the Scheme.

1.3. Scheme Area

The Scheme applies to the Scheme area which covers all of the local government district of the Shire as shown on the Scheme Map.

1.4. Contents of Scheme

AMD 14 GG 08/04/16

The Scheme comprises —

- (a) the Scheme Text;
- (b) the deemed provisions (set out in the *Planning and Development (Local Planning Schemes) Regulations 2015* Schedule 2)
- (c) the supplemental provisions contained in Schedule A; and
- (d) the Scheme Map (sheets 1 – 15).

The Scheme is to be read in conjunction with the Local Planning Strategy.

1.5. Purposes of Scheme

The purposes of the Scheme are to —

- (a) set out the local government’s planning aims and intentions for the Scheme area;
- (b) set aside land as reserves for public purposes;
- (c) zone land within the Scheme area for the purposes defined in the Scheme;
- (d) control and guide land use and development;
- (e) set out procedures for the assessment and determination of planning applications;
- (f) make provision for the administration and enforcement of the Scheme; and
- (g) address other matters set out in the Seventh Schedule to the Planning and Development Act.

1.6. The Aims of the Scheme

The aims of the Scheme are to —

- (a) Promote the planned expansion of all townsites, and encourage the consolidation and expansion of services and facilities within townsites.
- (b) Encourage population growth to take place in townsites, particularly where reticulated infrastructure is available or planned, to maximise infrastructure utility and investment and create focused demand for infrastructure improvement.
- (c) Improve and expand infrastructure in all towns to lessen environmental degradation.
- (d) Encourage seweraged residential development in all townsites where economically feasible.
- (e) Recognise the unique servicing, management, land use and socio-economic issues associated with rural residential settlement.
- (f) Protect the rural land resource by promoting a strong presumption against unplanned fragmentation of rural land.
- (g) Recognise the existing pattern of rural small holdings in proximity to the Moore River and Gingin Brook.
- (h) Facilitate more intensive and diversified use of rural land for higher value products, including horticulture, intensive animal husbandry and farm forestry, which are compatible with surrounding farming practices.
- (i) Ensure that the use and development of rural land is both compatible and complementary to traditional livestock, grazing and agricultural activities.
- (j) Support subdivision of rural land which is consistent with the preferred settlement strategy and which facilitates the ongoing productive rural use of the land.
- (k) Ensure that agricultural and urban land uses can be co-located efficiently with minimal conflict.
- (l) Promote processing and value adding industries to be located within the Shire.
- (m) Recognise the importance of the existing fishing industries within the coastal townsites, particularly in the context of potentially competing pressures of urban growth and tourism.
- (n) Facilitate increased demand and diversification of local service industries.
- (o) Promote Gingin Shire as an opportune location for regional development of industry, infrastructure and other specialised regional facilities.
- (p) Enhance and protect Gingin's unique physical environment as an asset for sustainable and dynamic tourism opportunities.
- (q) Promote sustainable management and land use to ensure the quality and adequate supply of groundwater and surface water bodies within the scheme area.
- (r) Protect the natural environment and biodiversity while ensuring appropriate development opportunities within the scheme area are realised.
- (s) Minimise land degradation and vegetation loss through integration of landcare principles within the planning process.

- (t) Recognise the importance of highways and main roads (Brand Highway and Indian Ocean Drive) as transport corridors ensuring safe and efficient travel with minimised traffic interaction.

1.7. Definitions

- 1.7.1. Unless the context otherwise requires, words and expressions used in the Scheme have the same meaning as they have —
 - a) in the Planning and Development Act; or
 - b) if they are not defined in that Act —
 - (i) in the Dictionary of defined words and expressions in Schedule 1; or
 - (ii) in the Residential Design Codes.
- 1.7.2. If there is a conflict between the meaning of a word or expression in the Dictionary of defined words and expressions in Schedule 1 and the meaning of that word or expression in the Residential Design Codes —
 - a) in the case of a residential development, the definition in the Residential Design Codes prevails; and
 - b) in any other case the definition in the Dictionary prevails.
- 1.7.3. Notes, and instructions printed in italics, are not part of the Scheme.

1.8. Relationship with local laws

Where a provision of the Scheme is inconsistent with a local law, the provision of the Scheme prevails.

1.9. Relationship with other Schemes

There are no other Schemes of the Shire of Gingin which apply to the Scheme area.

PART 2 — RESERVES

AMD 14 GG 08/04/16

2.1. Reserves

Certain lands within the Scheme area are classified as Local Reserves.

2.2. Regional Reserves

There are no regional reserves in the Scheme area.

2.3. Local Reserves

AMD 4 GG 31/05/16

2.3.1 “Local Reserves” are delineated and depicted on the Scheme Map according to the legend on the Scheme Map.

2.3.2 The objectives of each local reserve are as follows –

Environment Conservation

- a) To identify areas with biodiversity and conservation value, and to protect those areas from development and subdivision.
- b) To identify and protect areas of biodiversity conservation significance within National Parks and State and other conservation reserves.

2.4. Additional Uses for Local Reserves

AMD 4 GG 31/05/16

2.4.1 The Table in Schedule 2 sets out -

- a) classes of use for specified land located in local reserves that are additional to classes of use determined in accordance with the objectives of the reserve; and
- b) the conditions that apply to that additional use.

2.4.2 Despite anything contained in Clause 2.3, land that is specified in the Table to subclause 2.4.1 may be used for the additional class of use set out in respect of that land subject to the conditions that apply to that use.

2.5. Use and Development of Local Reserves

AMD 4 GG 31/05/16

2.5.1. A person must not —

- a) use a Local Reserve; or
- b) commence or carry out development on a Local Reserve,

without first having obtained development approval under Part 7 of the deemed provisions.

AMD 14 GG 08/04/16

2.5.2. In determining an application for development approval, the local government is to have due regard to —

AMD 14 GG 08/04/16

- a) the matters set out in clause 67 of the deemed provisions; and
- b) the ultimate purpose intended for the Reserve.

AMD 14 GG 08/04/16

2.5.3. In the case of land reserved for the purposes of a public authority, the local government is to consult with that authority before determining an application for development approval.

AMD 14 GG 08/04/16

PART 3 — ZONES AND THE USE OF LAND

AMD 14 GG 08/04/16

3.1. Zones

3.1.1. The Scheme area is classified into the zones shown on the Scheme Map.

3.1.2. The zones are delineated and depicted on the Scheme Map according to the legend on the Scheme Map.

3.2. Objectives of the Zones

3.2.1 Residential Zone

The objectives of the Residential Zone are to:

- a) provide for a range of housing types and encourage a high standard of residential development;
- b) maintain and enhance the residential character and amenity of the zone;
- c) limit non-residential activities to those of which the predominant function is to service the local residential neighbourhood and for self-employment or creative activities, provided such activities have no detrimental effect on the residential amenity; and
- d) ensure that the density of development takes cognisance of the availability of reticulated sewerage, the effluent disposal characteristics of the land and other environmental factors.

3.2.2 Town Centre Zone

The objectives of the Town Centre Zone are to:

- a) promote, facilitate and strengthen the town centre zone as the principal focus of the district in terms of shopping, professional, administrative, cultural, entertainment and other business activities;
- b) accommodate a diversity of commercial, cultural and residential facilities;
- c) encourage the integration of existing and proposed facilities within the zone so as to promote ease of pedestrian movement and the sharing of infrastructure, as well as to retain the opportunity for any future expansion of the area;
- d) provide for the efficient and safe movement and parking of vehicles; and
- e) ensure that buildings, ancillary structures and advertising are of high quality and contribute to the uniqueness of the townscape.

3.2.3 Mixed Business Zone

The objectives of the Mixed Business Zone are to:

- a) accommodate commercial activities which, because of the nature of the business, require good vehicular access and/or large sites;
- b) provide for a wide range of light and service industries, wholesale sales, showrooms, trade and services which, by reason of their scale, character, operational or land requirements, are not generally appropriate in, or cannot conveniently or economically be accommodated in, the central area, shops and offices or industrial zones;
- c) allow for commercial and light industrial uses that are compatible with nearby uses;

- d) provide for the efficient and safe movement and parking of vehicles;
- e) encourage new development that will enable future adaptation and re-use, and will enhance the visual amenity of the area; and
- f) ensure that where any development adjoins zoned or developed residential properties, such development is suitably set back, screened or otherwise treated so as not to detract from the residential amenity.

3.2.4 Industry Zone

The objectives of the Industry Zone are to:

- a) provide for industrial, service and storage activities which, by the nature of their operations, should be isolated from residential and other sensitive land uses;
- b) discourage non-industry related uses within industrial areas that may constrain industrial activities;
- c) provide for the efficient and safe movement and parking of vehicles; and
- d) encourage new industry to contain its emissions on-site and, if that is not possible, within the zone having due regard to nearby established premises.

3.2.5 Rural Industry Zone

The objective of the Rural Industry Zone is to:

- a) provide for a range of industrial land uses on rural-living sized lots where people can work and live on the same property.

3.2.6 Rural Living Zone

The objectives of the Rural Living Zone are to:

- a) protect the rural environment and landscape;
- b) accommodate single dwellings at very low densities on individual allotments beyond the urban areas;
- c) restrict and limit the removal of natural vegetation and encourage revegetation where appropriate;
- d) prevent threats to the amenity of the zone and impacts on wildlife and native vegetation caused by the grazing of livestock;
- e) avoid increased fire risk to life and property through inappropriately located and designed land use, subdivision and development; and
- f) provide for a suitable level of physical and community infrastructure.

3.2.7 General Rural Zone

The objectives of the General Rural Zone are to:

- a) manage land use changes so that the specific local rural character of the zone is maintained or enhanced;

- b) encourage and protect broad acre agricultural activities such as grazing and more intensive agricultural activities such as horticulture as primary uses, with other rural pursuits and rural industries as secondary uses in circumstances where they demonstrate compatibility with the primary use;
- c) maintain and enhance the environmental qualities of the landscape, vegetation, soils and water bodies, to protect sensitive areas especially the natural valley and watercourse systems from damage; and
- d) provide for the operation and development of existing, future and potential rural land uses by limiting the introduction of sensitive land uses in the General Rural zone.

3.2.8 Tourism Zone

The objectives of the Tourism Zone are to:

- a) promote and provide for tourism opportunities;
- b) provide for a variety of holiday accommodation styles and associated uses, including retail and service facilities where such facilities are provided in support of the tourist accommodation and are of an appropriate scale where they will not impact detrimentally on the surrounding or wider area;
- c) allow limited residential uses where appropriate;
- d) encourage the location of tourist facilities so that they may benefit from existing road services, physical service infrastructure, other tourist attractions, natural features and urban facilities;
- e) ensure that short stay tourist and holiday accommodation are the predominant land uses in the zone; and
- f) encourage tourism development that is generally sympathetic to the natural and built features of the surrounding area.

3.2.9 Future Development Zone

The objectives of the Future Development Zone are to:

- a) designate land considered to be generally suitable for future development and to prevent such land being used or developed in a manner which could prejudice its possible future use for planned development;
- b) provide for the sustainable development of land in an orderly manner with appropriate levels of physical infrastructure and human services; and
- c) ensure the orderly development of the land, through a requirement for the preparation and endorsement of a Structure Plan in accordance with the provisions of Part 4 of the deemed provisions, as a pre-requisite to subdivision or development of the land.

AMD 14 GG 08/04/16

3.2.10 Conservation Zone

The objective of the Conservation Zone is to:

- a) adequately protect areas considered high environmental value from urban development and environmental degradation.

3.2.11 Landscape Protection Zone

The objectives of the Landscape Protection Zone are to:

- a) Preserve visual landscape quality;
- b) Protect and enhance landscape and scenic values through location and siting of land uses and development, and control over design and building materials;
- c) Maintain the integrity of the landscape which is visible from identified travel routes and recreation areas, consistent with visual management objectives identified within a landscape and visual impact study; and
- d) Provide for limited development, where the built form is consistent with zone objectives.

AMD 3 GG 25/09/15

3.3. Zoning Table

3.3.1. The Zoning Table (Table 1) indicates, subject to the provisions of the Scheme, the uses permitted in the Scheme area in the various zones. The permissibility of any uses is determined by cross reference between the list of use classes on the left-hand side of the Zoning Table and the list of zones at the top of the Zoning Table.

3.3.2. The symbols used in the cross reference in the Zoning Table have the following meanings —

- 'P' means that the use is permitted by the Scheme providing the use complies with the relevant development standards and the requirements of the Scheme;
- 'D' means that the use is not permitted unless the local government has exercised its discretion by granting development approval;
AMD 14 GG 08/04/16
- 'A' means that the use is not permitted unless the local government has exercised its discretion by granting development approval after giving special notice in accordance with clause 64 of the deemed provisions;
AMD 14 GG 08/04/16
- 'X' means a use that is not permitted by the Scheme.

3.3.3. A change in the use of land from one use to another is permitted if —

- a) the local government has exercised its discretion by granting development approval;
AMD 14 GG 08/04/16
- b) the change is to a use which is designated with the symbol 'P' in the cross reference to that zone in the Zoning Table and the proposed use complies with all the relevant development standards and any requirements of the Scheme;
- c) the change is an extension of a use within the boundary of the lot which does not change the predominant use of the lot; or
- d) the change is to an incidental use that does not change the predominant use of the land.

- Note:
- 1. The development approval of the local government is required for the development of land in addition to any approval granted for the use of land. In normal circumstances one application is made for both the use and development of land.
AMD 14 GG 08/04/16
 - 2. The local government will not refuse a 'P' use because of the unsuitability of the use for the zone but may impose conditions on the use of the land to comply with any relevant development standards or requirements of the Scheme, and may refuse or impose conditions on any development of the land.
 - 3. In considering a 'D' or 'A' use, the local government will have regard to the matters set out in clause 67 of the deemed provisions.
AMD 14 GG 08/04/16
 - 4. The local government must refuse to approve any 'X' use of land. Approval to an 'X' use of land may only proceed by way of an amendment to the Scheme.

3.4. Interpretation of the Zoning Table

- 3.4.1. Where a specific use is mentioned in the Zoning Table, it is deemed to be excluded from the general terms used to describe any other use.
- 3.4.2. If a person proposes to carry out on land any use that is not specifically mentioned in the Zoning Table and cannot reasonably be determined as falling within the type, class or genus of activity of any other use category the local government may —
- a) determine that the use is consistent with the objectives of the particular zone and is therefore permitted;
 - b) determine that the use may be consistent with the objectives of the particular zone and thereafter follow the advertising procedures of clause 64 of the deemed provisions in considering an application for development approval; or
AMD 14 GG 08/04/16
 - c) determine that the use is not consistent with the objectives of the particular zone and is therefore not permitted.
AMD 14 GG 08/04/16
- 3.4.3 If the Zoning table does not identify any permissible uses for land in a zone the local government may, in considering an application for development approval for land within the zone, have due regard to any of the following plans that apply to the land.
- a) a structure plan
 - b) an activity centre plan
 - c) a local development plan
AMD 14 GG 08/04/16

3.5. Additional uses

Despite anything contained in the Zoning Table, the land specified in Schedule 2 may be used for the specific use or uses that are listed in addition to any uses permissible in the zone in which the land is situated subject to the conditions set out in Schedule 2 with respect to that land.

Note: An additional use is a land use that is permitted on a specific portion of land in addition to the uses already permissible in that zone that applies to the land.

3.6. Restricted Uses

Despite anything contained in the Zoning Table, the land specified in Schedule 3 may only be used for the specific use or uses that are listed and subject to the conditions set out in Schedule 3 with respect to that land.

Note: A restricted use is the only use or uses that is permitted on a specific portion of land and other uses that would otherwise be permissible in the zone are not permitted.

3.7. Special Use Zones

- 3.7.1. Special use zones are set out in Schedule 4 and are in addition to the zones in the Zoning Table.
- 3.7.2. A person must not use any land, or any structure or buildings on land, in a special use zone except for the purpose set out against that land in Schedule 4 and subject to compliance with any conditions set out in Schedule 4 with respect to that land.

Note: Special use zones apply to special categories of land use which do not comfortably sit within any other zone in the Scheme.

3.8. Non-conforming Uses

Except as otherwise provided in the Scheme, no provision of the Scheme is to be taken to prevent —

- (a) the continued use of any land for the purpose for which it was being lawfully used immediately prior to the Gazettal date;
- (b) the carrying out of any development on that land for which, immediately prior to the Gazettal date, an approval or approvals, lawfully required to authorize the development to be carried out, were duly obtained and are current; or
- (c) subject to clause 80 of the deemed provisions, the continued display of advertisements which were lawfully erected, placed or displayed prior to the Gazettal date. *AMD 14 GG 08/04/16*

Note: “Land” has the same meaning as in the Planning and Development Act and includes houses, buildings and other works and structures.

3.9. Extensions and Changes to a Non-Conforming Use

3.9.1. A person must not —

- a) alter or extend a non-conforming use;
- b) erect, alter or extend a building used in conjunction with or in furtherance of a non-conforming use; or
- c) change the use of land from a non-conforming use to another non-conforming use, without first having applied for and obtained development approval under the Scheme. *AMD 14 GG 08/04/16*

3.9.2. An application for development approval under this clause is to be advertised in accordance with clause 64 of the deemed provisions. *AMD 14 GG 08/04/16*

3.9.3. Where an application is for a change of use from an existing non-conforming use to another non-conforming use, the local government is not to grant its development approval unless the proposed use is less detrimental to the amenity of the locality than the existing non-conforming use and is, in the opinion of the local government, closer to the intended purpose of the zone. *AMD 14 GG 08/04/16*

3.10. Discontinuance of Non-Conforming Use

Where a non-conforming use of any land has been discontinued for a period of 6 months the land must not be used after that period otherwise than in conformity with the provisions of the Scheme.

3.11. Termination of a Non-Conforming Use

The local government may effect the discontinuance of a non-conforming use by the purchase of the land, or by the payment of compensation to the owner or occupier or to both the owner and occupier of that land, and may enter into an agreement with the owner for that purpose.

Note: Section 191 of the Planning and Development Act enables the local government to purchase, or, with the approval of the Governor, compulsorily acquire land for the purpose of a Local Planning Scheme, subject to Part 9 of the Land Administration Act 1997, that section and the Scheme. *AMD 14 GG 08/04/16*

3.12. Destruction of Non-Conforming Use Buildings

If a building used for a non-conforming use is destroyed to 75% or more of its value, the building is not to be repaired, rebuilt, altered or added to for the purpose of being used for a non-conforming use or in a manner not permitted by the Scheme, except with the development approval of the local government. *AMD 14 GG 08/04/16*

PART 4 — GENERAL DEVELOPMENT REQUIREMENTS

AMD 14 GG 08/04/16

4.1. Compliance with Development Standards and Requirements

Any development of land is to comply with the provisions of the Scheme.

4.2. Residential Design Codes

- 4.2.1. A copy of the Residential Design Codes is to be kept and made available for public inspection at the offices of the local government.
- 4.2.2. Unless otherwise provided for in the Scheme, the development of land for any of the residential purposes dealt with by the Residential Design Codes is to conform with the provisions of those Codes.
- 4.2.3. The Residential Design Codes density applicable to land within the Scheme area is to be determined by reference to the Residential Design Codes density number superimposed on the particular areas contained within the borders shown on the Scheme Map or where such an area abuts another area having a Residential Design Code density, as being contained within the area defined by the centre-line of those borders.

4.3. Special Application of Residential Design Codes

- 4.3.1 The Residential Design Code for Mixed Use, grouped dwelling or multiple dwelling development in the Town Centre Zone shall be limited to R60.
- 4.3.2 Within areas that are dual coded on the Scheme Map, development and subdivision in accordance with the higher code shall only be supported where reticulated sewerage is available.

4.4. Restrictive Covenants

- 4.4.1. Subject to clause 4.4.2, a restrictive covenant affecting any land in the Scheme area by which, or the effect of which is that, the number of residential dwellings which may be constructed on the land is limited or restricted to less than that permitted by the Scheme, is hereby extinguished or varied to the extent that it is inconsistent with the provisions of the Residential Design Codes which apply under the Scheme. AMD 14 GG 08/04/16
- 4.4.2. Where clause 4.4.1. operates to extinguish or vary a restrictive covenant the local government is not to grant development approval to the development of the land which would, but for the operation of clause 4.4.1, have been prohibited unless the application has been dealt with as an 'A' use and has complied with all of the advertising requirements of clause 64 of the deemed provisions. AMD 14 GG 08/04/16

4.5. Variations to Site and Development Standards and Requirements

- 4.5.1. Except for development in respect of which the Residential Design Codes apply, if a development is the subject of an application for development approval and does not comply with a standard or requirement prescribed under the Scheme, the local government may, despite the non-compliance, approve the application unconditionally or subject to such conditions as the local government thinks fit. AMD 14 GG 08/04/16
- 4.5.2. In considering an application for development approval under this clause, where, in the opinion of the local government, the variation is likely to affect any owners or occupiers in the general locality or adjoining the site which is the subject of consideration for the variation, the local government is to — AMD 14 GG 08/04/16
 - a) consult the affected parties by following one or more of the provisions for advertising uses under clause 64 of the deemed provisions; and AMD 14 GG 08/04/16

- b) have regard to any expressed views prior to making its determination to grant the variation.

4.5.3. The power conferred by this clause may only be exercised if the local government is satisfied that —

- a) approval of the proposed development would be appropriate having regard to the matters set out in clause 67 of the deemed provisions; and *AMD 14 GG 08/04/16*
- b) the non-compliance will not have an adverse effect upon the occupiers or users of the development, the inhabitants of the locality or the likely future development of the locality.

4.6. Environmental Conditions

4.6.1. Environmental conditions to which the Scheme is subject, or will be through future amendments, are incorporated into the Scheme by Schedule 11 of the Scheme.

Note: Environmental conditions are those required to be incorporated into a Scheme or an amendment to a Scheme following assessment under the *Environmental Protection Act 1986*.

4.7 General Development Standards

4.7.1 Site Requirements

Subject to the provisions of the Scheme, the minimum standards for development in the various zones are set out in Table 2.

TABLE 2 – SITE REQUIREMENTS

Zone	Minimum Setback			Maximum Plot Ratio	Maximum Site Coverage	Minimum Landscaping
	Front	Side	Rear			
Residential	As per Residential Design Codes					
Town Centre	Nil	Nil	6.0m	1	75%	50% of all setback areas
Mixed Business	7.5m	Nil	6.0m	0.5	75%	5% of site area - landscaping required along street frontage
General Industry	10m	Nil	6.0m	0.5	75%	5% of site area - landscaping required along street frontage
Rural Industry	Caretaker's Dwelling - 6m Other uses - 20m	20m	20m	0.5	50%	5% of site area – screening of non-residential uses from street required
Rural Living	20m	20m	20m	N/A	N/A	As required by local government
General Rural	20m	20m	20m	N/A	N/A	As required by local government
Tourism	5m	Nil	6m	0.5	50%	50% of all setback areas

- Note: (a) Local government may approve interchanging of side and rear setbacks where it is satisfied that the objectives of the zone are not compromised.
- (b) Local government may vary the Table 2 site requirements provisions in the Town Centre and Tourism zones subject to consultation with affected landowners. *AMD 14 GG 08/04/16*

4.7 2 Parking

4.7.2.1 Provisions for Parking, Access for Loading and Unloading Vehicles

In the Town Centre, Mixed Business, General Industry, Rural Industry and Tourist zones:

- (i) no land or buildings shall be developed unless provision is made for an area clear of the street for the purpose of loading or unloading goods or materials.
- (ii) the local government will seek to ensure that the majority of servicing vehicles will be able to leave and enter the street in a forward direction.
- (iii) parking, loading and unloading and access, complete with necessary drainage, signs and marking as required by the local government, shall be provided prior to any occupation of the development or at such time as may be agreed in writing between the local government and the developer.
- (iv) external servicing areas shall be established and maintained to the satisfaction of the local government.

- 4.7.2.2 No commercial vehicle in excess of 3 tonnes tare weight shall be permitted to be parked on any Residential or Rural Living lot without development approval of the local government unless: *AMD 14 GG 08/04/16*
- (i) provision is made for the vehicle to be housed in a garage or parked behind the building line;
 - (ii) the vehicle together with its load does not exceed three metres in height;
 - (iii) the vehicle forms an essential part of the lawful occupation of an occupant of the dwelling and that occupation, if carried on upon the lot, does not contravene the provisions of the Scheme; and
 - (iv) the vehicle is not brought or taken from the land between the hours of midnight and 6.00am.
- 4.7.2.3 Except with the approval of local government, a person shall not use or develop land for a purpose specified in Column 1 of Table 3 unless provision is made on the site for a number of car parking spaces not less than the number calculated in accordance with Column 2 of that Table shown opposite that purpose. *AMD 14 GG 08/04/16*
- 4.7.2.4 Where a calculation made in pursuance of subclause 4.7.2.3 results in a number which is not a whole number, the number of parking spaces required shall be the next highest whole number. *AMD 14 GG 08/04/16*
- 4.7.2.5 Where there is a use of land referred to in the Zoning Table (Table 1) for which no provision is made in respect of car parking spaces in Table 3, the car parking spaces required for that use of land shall be as determined by local government. *AMD 14 GG 08/04/16*
- 4.7.2.6 The size of car parking spaces and the driveways providing entry to, or exit from, a parking area shall be in accordance with Table 4 and the explanatory figure in Table 5.
- 4.7.2.7 Where car parking spaces are required to be provided pursuant to this Scheme, the local government may accept a cash payment in lieu of the provision of some or all of those car parking spaces, if: *AMD 14 GG 08/04/16*
- (i) the payment is not less than the amount the local government estimates to be the cost to the owner of providing and constructing those spaces together with the amount the local government estimates to be the value of the land which would have been occupied by those spaces; and *AMD 14 GG 08/04/16*
 - (ii) payment is made prior to commencement of the development in respect of which those spaces are required to be provided or in accordance with the terms of an agreement made between the local government and the applicant for development approval for that development. *AMD 14 GG 08/04/16*

4.7.2.8 Any amount paid to the local government under subclause (1), shall be held by the local government, in a separate reserve account or trust account and shall be applied by the local government: *AMD 14 GG 08/04/16*

- (i) in providing car parking spaces or car parking facilities capable of serving the needs of the development in respect of which the payment was made and in the locality of that development; or
- (ii) to the acquisition of land and the construction of buildings for the purpose referred to in paragraph a) of this subclause.

TABLE 3 – PARKING REQUIREMENTS

Column 1 – Used/Development	Column 2 – Minimum number of carparking spaces required
Amusement Parlour	1 per 10m ² gross leaseable area
Bed & Breakfast	1 per bedroom plus 1 per staff member
Caravan Park	1.5 per camp site
Child Care Premises	1 per staff member plus 1 per 8 children
Cinema/Theatre	1 per 4 seats
Club Premises	1 per 4 persons
Consulting Rooms	5 per consulting room plus 1 per staff member
Educational Establishment	Primary – 1.5 per classroom Secondary – 2 per classroom
Hospital	1 per 5 beds plus 1 per staff member
Hotel	1 per bed plus 1 per 5m ² public area
Industry	1 per 100m ² gross leaseable area or 2 per unit, whichever is the greatest
Motel	1 per unit plus 1 per 10m ² public restaurant
Motor Vehicle, Boat or Caravan Sales	1 per 45m ² gloss floor area plus 1 per 100m ² open display area
Office	1 per 40m ² gross lease area
Place of Worship	1 per 4 persons
Residential Building	0.5 per bedroom or bedspace
Restaurant	1 per 4 persons
Service Station	1.5 per service bay plus 1 per staff member
Shop	1 per 20m ² gross leasable area
Showroom	1 per 60m ² gross leasable area
Tavern	1 per 5m ² public area
Warehouse	1 per 100m ² gross leaseable area

Note: Car parking spaces for the disabled to be provided in accordance with the Building Code of Australia

TABLE 4 – PARKING DIMENSIONS

PARKING ANGLE	WIDTH OF BAY (metres)	LENGTH OF BAY (metres)	DEPTH OF BAY (metres)	MINIMUM MANOEUVRING DEPTH (metres)	MINIMUM TOTAL DEPTH (metres)
		(a) ONE-WAY ACCESS

(parallel parking)					

TABLE 5 – EXPLANATORY FIGURE

4.7.3 Tree Preservation Order

The local government may by notice served upon individual land owners or upon a subdivider of land require the preservation of a tree or group of trees and thereafter no landowner shall cut, remove or otherwise destroy any tree unless the local government rescinds the notice or order, or the tree is dead, diseased or dangerous.

AMD 14 GG 08/04/16

4.7.4 Coastal Development

4.7.4.1 All coastal development is to comply with the provisions of State Planning Policy 2.6 - State Coastal Planning Policy.

4.7.4.2 In accordance with section 77(1)(b) of the *Planning and Development Act 2005*, the provisions of State Planning Policy 2.6 - State Coastal Planning shall apply as if they were part of this Scheme.

AMD 14 GG 08/04/16

4.8 Zone Specific Development Standards**4.8.1 Residential Zone**

4.8.1.1 In the Residential zone lot sizes shall be in accordance with the Residential Design Code Densities indicated on the Scheme Map.

4.8.2 Town Centre Zone

4.8.2.1 Development within the Town Centre zone shall have regard for the particular character, townscape and sense of place of the local area.

4.8.2.2 Where development or re-development of properties in the Town Centre zone is envisaged, the incorporation of residential uses up to a density of R40 will be considered, to create greater diversity of use, increased security and to stimulate additional life and vitality within the centre of the town. Any such residential development shall comply with the design elements for multiple dwellings in the Residential Design Codes.

4.8.2.3 Where a mixed-use development is proposed, the residential use shall be confined to an upper storey.

4.8.2.4 Building Materials

Each façade or wall of a building facing any street or public place shall be constructed of brick, stone, concrete or glass or combinations of two or more of these materials or similar material as approved by local government to the wall height of the building or to a minimum height of 3 metres.

AMD 14 GG 08/04/16

4.8.2.5 Refuse Storage Areas

All developments shall provide at least one refuse storage area readily accessible to service vehicles and screened from view from a public street by a close fence, wall or screen landscaping no less than 1.8 metres in height.

4.8.2.6 Storage Yards

A person shall not use land for open storage purposes unless it is screened from public view by a fence or wall to the satisfaction of the local government.

AMD 14 GG 08/04/16

4.8.3 Mixed Business and General Industry Zones

4.8.3.1 Lot sizes shall be a minimum of 1500 square metres.

4.8.3.2 Refuse Storage Areas

All developments shall provide at least one refuse storage area readily accessible to service vehicles and screened from view from a public street by a close fence, wall or screen landscaping no less than 1.8 metres in height.

4.8.3.3 Storage Yards

A person shall not use land for open storage purposes unless it is screened from public view by a fence or wall to the satisfaction of the local government.

AMD 14 GG 08/04/16

4.8.3.4 Factory Tenement Buildings

Industrial buildings occupied or intended to be occupied by more than one separate business establishment, shall be constructed so that every occupancy:

- (i) has a floor area of at least 100 square metres and neither its width nor length is less than eight metres;
- (ii) has an adjacent open yard area no smaller than one-third of the floor area of the occupancy;
- (iii) has an open yard with direct access to a service access road not less than 6 metres in width; and
- (iv) is separated from every other occupancy by a suitable distance or an internal wall or walls constructed of brick, stone, concrete or other material of equal or greater fire rating approved by local government.

AMD 14 GG 08/04/16

4.8.3.5 Fences

The minimum standard fence shall be a 1.8 metre link mesh security fence unless otherwise approved by the local government.

AMD 14 GG 08/04/16

4.8.4 Rural Industry Zone**4.8.4.1 Lot sizes shall be between 1 and 4 hectares.****4.8.4.2 Local government may, at its discretion, consider permitting the land use "single house". In doing so, local government will be guided by the development standards in clause 4.8.9, excepting clauses 4.8.9.4 and 4.8.9.5.**

AMD 14 GG 08/04/16

4.8.4.3 Refuse Storage Areas

All developments shall provide at least one refuse storage area readily accessible to service vehicles and screened from view from a public street by a close fence, wall or screen landscaping no less than 1.8 metres in height.

4.8.4.4 Storage Yards

A person shall not use land for open storage purposes unless it is screened from public view by a fence or wall to the satisfaction of the local government.

AMD 14 GG 08/04/16

4.8.5 Rural Living Zone

4.8.5.1 In the Rural Living zone lot sizes shall comply with the following standards:

Code	Minimum Lot Size
RL1	1 Hectare
RL2	2 Hectares
RL3	3 Hectares
RL4	4 Hectares
RL	No further subdivision will be supported

4.8.5.2 No more than one dwelling will be permitted on a lot zoned Rural Living.

4.8.5.3 Where land zoned Rural Living adjoins rural uses with buffer requirements, dwellings shall be setback a minimum of 100m from the relevant boundary(s) nearby to the adjoining rural uses, or such other setback distance as may be specified on an adopted Structure Plan.

4.8.5.4 No dwelling shall be erected unless the lot is connected to a reticulated water supply or the local government is satisfied that there is an adequate potable water supply consisting of a roof water tank of not less than 90,000 litres, a bore, well, spring, soak or dam.
AMD 14 GG 08/04/16

4.8.5.5 Fencing shall conform to the standard of rural fencing in the district, and the use of solid panel fences except in the immediate vicinity of the residence will only be permitted with the approval of local government. *14 GG 08/04/16*

4.8.5.6 No natural vegetation shall be removed without prior written approval of local government, unless its removal is necessary for construction of a building, firebreak or boundary fence.
AMD 14 GG 08/04/16

4.8.5.7 The siting and design of any buildings on any lot should not significantly impact on the natural vegetation or visual landscape amenity of the site.

4.8.5.8 The keeping of horses, sheep, goats and other grazing animals, where permitted, shall not exceed the stocking rates recommended by Agriculture Western Australia for the applicable pasture types.

4.8.5.9 Notwithstanding clause 4.8.5.8, within the Sovereign Hill Estate a maximum of two dry sheep equivalents per hectare can be applied in respect of domestic use, to avoid soil degradation.
AMD 14 GG 08/04/16

4.8.5.10 Subdivision and development of land, including fencing and firebreaks are to accord with an approved structure plan.
AMD 14 GG 08/04/16

4.8.5.11 No further subdivision is permitted in the Rural Living zone unless provided for in an approved structure plan.
AMD 14 GG 08/04/16

4.8.6 General Rural Zone

4.8.6.1 In the General Rural zone lot sizes shall comply with the following standards:

Code	Minimum Lot Size
GR10	10 Hectare
GR20	20 Hectares
GR30	30 Hectares
GR40	40 Hectares

UNCODED

Further subdivision will not be supported unless it meets the exceptional circumstance requirements for subdivision under WAPC Development Control Policy 3.4.

- 4.8.6.2 No more than one single dwelling house shall be erected on a lot zoned General Rural unless the Local Government is satisfied that an additional house is necessary or desirable for the continuation of a bona fide agricultural activity, and is satisfied that the land can be adequately serviced, surrounding amenity is not adversely impacted on or any other consideration it considers relevant.
- 4.8.6.3 The presence of more than one dwelling unit on a lot in the General Rural zone shall not be considered by itself to be sufficient grounds for subdivision.
- 4.8.6.4 No dwelling shall be erected unless the lot is connected to a reticulated water supply or the local government is satisfied that there is an adequate potable water supply consisting of a roof water tank of not less than 90,000 litres, a bore, well, spring, soak or dam. *AMD 14 GG 08/04/16*
- 4.8.6.5 Fencing shall conform to the standard of rural fencing in the district, and the use of solid panel fences except in the immediate vicinity of the residence will only be permitted with the approval of local government. *AMD 14 GG 08/04/16*
- 4.8.6.6 No natural vegetation shall be removed without prior written approval of local government, unless its removal is necessary for construction of a building, firebreak or boundary fence. *AMD 14 GG 08/04/16*
- 4.8.6.7 The siting and design of any buildings on any lot should not significantly impact on the natural vegetation or visual landscape amenity of the site.
- 4.8.6.8 The keeping of horses, sheep, goats and other grazing animals, where permitted, shall not exceed the stocking rates recommended by Agriculture Western Australia for the applicable pasture types. *AMD 14 GG 08/04/16*
- 4.8.6.9 Local government may, at its discretion, permit the land uses "retirement village" and "aged persons accommodation" in the General Rural zone, but only within the Gingin townsite (as defined by the suburb boundary), and subject to appropriate zoning of the site at a later stage. *AMD 14 GG 08/04/16*
- 4.8.6.10 Prior to any subdivision and development of GR coded land, a structure plan may be required to address issues including: *AMD 12 GG 06/09/16*
- (i) access;
 - (ii) building exclusion zones;
 - (iii) bushfire management;
 - (iv) servicing; and
 - (v) environmental features and buffers.
- 4.8.6.11 Notwithstanding clause 4.8.6.10, a structure plan may not be required in support of proposals on GR coded land where identified issues may be addressed through the provision of technical information. *AMD 12 GG 06/09/16*

4.8.7 Tourism Zone

- 4.8.7.1 Development within the Tourism Zone will comprise a range of land uses set out in the purpose and objectives of the Zone and in the Zoning Table. Dependent upon the use proposed, sites for such developments will normally be identified within or in close proximity to established settlements.
- 4.8.7.2 Development proposals will be considered by the local government with particular regard to the impact of the proposed development on visual and natural amenity, the availability of reticulated sewerage and/or the suitability of the land for on-site effluent disposal, the provision of sufficient landscape buffers and the density of the development.
- 4.8.7.3 Those areas of the site providing the highest tourism amenity, e.g. the beachfront, shall be retained for tourism purposes, and not designated for residential use. The maximum proportion of residential units shall be such that the site retains a dominant tourism function and character, and shall be determined by the local government between zero and 25 per cent inclusive.
AMD 14 GG 08/04/16
- 4.8.7.4 Where tourism development with no permanent or semi-permanent residential units is proposed, local government may at its discretion vary the maximum plot ratio imposed.
AMD 14 GG 08/04/16
- 4.8.7.5 Where strata titling is proposed, appropriate management arrangements in a management statement which ensures that all units will be let out for tourism.
- 4.8.7.6 The maximum percentage of residential units/development on site shall comply with the following at all stages of the development:
- (i) the proportion of residential units relative to the total number of accommodation units on the site shall be equal to or less than the approved percentage.
 - (ii) the site area occupied by the residential units, and any areas designated for the specific use of occupiers of those units, relative to the area occupied by the short-stay development shall be equal to or less than the approved percentage. In calculating the area occupied by the two development categories, those facilities available for common use shall be excluded from the calculation.
 - (iii) that any individual residential unit and as a whole any residential component of such a development shall be of a design and scale that is clearly subsidiary to the tourism component of the development such that the tourism component remains dominant in all aspects.
- 4.8.7.7 Proposals for offices and reception centres in the Tourism Zone will only be considered where they are incidental to, and support the proposed tourism use on the site.
- 4.8.7.8 Tourism development that incorporates accommodation and/or reception facilities shall include provision for an onsite manager.
- 4.8.7.9 Proposals for subdivision and development for Residential land uses in the Tourism zone will be determined in accordance with Residential R12.5 code unless combined with a Tourism proposal.
- 4.8.7.10 In considering proposals in the Tourism Zone, local government shall have regard for the zone objectives, the scale and bulk of the proposal and its integration with surrounding land uses.
AMD 14 GG 08/04/16

- 4.8.7.11 Local government may, at its discretion, require proposed shared facilities in tourist developments to be established in the first stage of development.

AMD 14 GG 08/04/16

- 4.8.7.12 To reduce the likelihood of tourism accommodation being used as permanent or semi-permanent accommodation, a maximum length of stay provision of three months in any twelve-month period should apply to the tourism units on all developments.

- 4.8.7.13 In addition to the requirements of Clause 4.8.7, site specific conditions for tourism developments are outlined in Schedule 11 - Tourism Conditions.

AMD 16 GG 15/05/18

4.8.8 Conservation Zone

- 4.8.8.1 Development within the Conservation Zone is to be in accordance with the zone objectives and/or site specific environmental conditions outlined in Schedule 7 of the Scheme.

- 4.8.8.2 Where development is proposed that would affect a Conservation zone, at the time of structure planning, the proponent is to prepare an Environmental Management Plan, in consultation with the Department of Parks and Wildlife. The plan is to be approved by the local government with arrangements made for the implementation of the approved plan. The management plan is to address the following:

- (i) protection and management of the environmental values of the zone;
- (ii) location of building envelope(s) and access arrangements, taking into account environmental and visual landscape impacts;
- (iii) fencing, fire management, weed control, rehabilitation and control of domestic pets; and
- (iv) other matters relevant to the site, as recommended by the Department of Parks and Wildlife or local government.

- 4.8.8.3 No subdivision of land is permitted within the Conservation zone, unless specifically provided for in an approved structure plan.

- 4.8.8.4 Where subdivision is contemplated, and if acceptable to covenanting bodies, a conservation covenant will be required as a condition of subdivision.

- 4.8.8.5 Development approval is required for all development in the Conservation zone.

AMD 14 GG 08/04/16

- 4.8.8.6 All development in the Conservation zone must be located within an approved building envelope. Building envelopes and associated access and servicing infrastructure are to be located in areas assessed as having the poorest quality vegetation condition in the zone.

- 4.8.8.7 The visual impact of development in the Conservation zone is to be managed such that:

- (i) development shall not be prominently located as seen from Old Ledge Point Road;
- (ii) development shall be of a colour that blends with the dominant colours of the setting;
- (iii) development shall have a low profile, with a low pitch roof and horizontal form;

- (iv) development shall have roofing of a non-reflective nature;
- (v) development should involve minimal contouring of the natural ground surface; and
- (vi) development should have access that is not prominent and follows natural contours.

4.8.8.8 Development in the Conservation zone is to be provided with a licenced water supply.

4.8.8.9 All earthworks and construction shall be carried out in a manner which minimises disturbance of vegetation. *AMD 3 GG 25/9/15*

4.8.9 Caretakers Dwellings

4.8.9.1 Caretakers' dwellings may be permitted in the Mixed Business, Rural Industry and Tourism Zones.

4.8.9.2 A caretaker's dwelling must be incidental to the predominant use of the site.

4.8.9.3 Only one caretaker's dwelling is permitted on each lot.

4.8.9.4 The total permitted floor area of a caretaker's dwelling is 100m², measured from the external face of walls.

4.8.9.5 Open verandahs may be permitted, but if enclosed will form part of the total calculated floor area.

4.8.9.6 Local government may consider the use of notifications on title to advise prospective purchasers of potential impacts from noise, dust, odour or amenity that may arise from the location of a residential land use within the zone. *AMD 14 GG 08/04/16*

4.8.9.7 Local government will not consider applications for caretakers' dwellings prior to the primary site activity being either approved or constructed. *AMD 14 GG 08/04/16*

4.8.9.8 Where simultaneous approval has been granted by local government for both a caretaker's dwelling and the main activity on the same lot, the main activity must be developed and operational prior to occupation of the dwelling. *AMD 14 GG 08/04/16*

4.8.9.9 Caretaker's dwellings should be carefully sited and constructed so the potential site (or estate) impacts from noise, dust, odour or amenity are minimised.

4.8.9.10 A caretaker's dwelling may only be occupied by the owner, manager, lessee or employee (and immediate family thereof) of the lawfully established or approved land use.

4.8.10 Extractive Industries

4.8.10.1 Local government may consider applications for extractive industries in the General Rural zone where the sites have not been identified within an SCA under clause 5.4. *AMD 14 GG 08/04/16*

4.8.10.2 In considering applications for extractive industries, local government will have regard for the zone objectives. *AMD 14 GG 08/04/16*

- 4.8.10.3 Local government will also consider the potential impact of the extractive industry in regard to surrounding land uses (both existing and future) and may apply conditions to manage the potential impacts, such as noise, dust, odour and amenity. *AMD 14 GG 08/04/16*

4.8.11 Landscape Protection zone

- 4.8.11.1 Subdivision and development in the Landscape Protection zone shall be undertaken in accordance with a Structure Plan prepared and adopted in accordance with Part 4 of the deemed provisions. *AMD 14 GG 08/04/16*
- 4.8.11.2 At structure planning stage, a site level Landscape and Visual Impact Assessment, incorporating viewshed analysis, is to be undertaken to guide subdivision and development within the Landscape Protection zone.
- 4.8.11.3 Where a site level Landscape and Visual Impact Assessment indicates that a boundary adjustment to a Landscape Protection Zone is required this may take the form of a basic amendment.
- 4.8.11.4 All development in the Landscape Protection zone must be located within an approved building envelope, which is to be identified at structure planning stage.
- 4.8.11.5 Development approval is required for all development within the Landscape Protection zone. *AMD 14 GG 08/04/16*
- 4.8.11.6 In considering an application for development approval, the local government shall have regard to: *AMD 14 GG 08/04/16*
- (i) the impact of any buildings and associated works on the landscape due to height, bulk, colour, general appearance and the need to remove vegetation; and
 - (ii) the requirement for roofing of any building to be a of a non-reflective nature.
- 4.8.11.7 Development in the Landscape Protection zone is to be provided with a licenced water supply.
- 4.8.11.8 Only one building for residential purposes is permitted on a lot.
- 4.8.11.9 Multiple and grouped dwellings will not exceed more than two dwellings per lot and will be accommodated in a single building with a maximum of two storeys.
- 4.8.11.10 All earthworks and construction shall be carried out in a manner which minimises disturbance of vegetation. *AMD 3 GG 25/09/15*

PART 5 — SPECIAL CONTROL AREAS

5.1. Operation of special control areas

5.1.1 The following Special Control Areas are shown on the Scheme Maps:

- a) Special Control Area No. 1 – River Environs Management Area
- b) Special Control Area No. 2 – Public Drinking Water Areas
- c) Special Control Area No. 3 - Basic Raw Materials Areas
- d) Special Control Area No. 4 – Wastewater Infrastructure Buffer Areas
- e) Special Control Area No. 5 – Development Contribution Areas

5.1.2 In respect of the Special Control Area(s) shown in the Scheme Maps, the provisions applying to the special control area apply in addition to the provisions applying to any underlying zone or reserve and any general provisions of the Scheme.

5.2 Special Control Area 1 – River Environs Management Areas

5.2.1 Purpose

To retain the physical and biological features along the waterway necessary for the healthy functioning of the waterway in terms of water conveyance, water quality and ecological functions.

To provide for recreational activities and facilities where appropriate and managed.

5.2.2 Application Requirements

Development approval is required to construct or extend a dwelling or other building, and/or to carry out any other form of development on any land affected by this Special Control Area.

AMD 14 GG 08/04/16

5.2.3 Development Standards and Considerations

In considering any rezoning request, subdivision or development application the local government will have regard to the following:

AMD 14 GG 08/04/16

- a) More intensive development such as residential, industrial or rural residential subdivision, will generally not be supported within the River Environs Management Area.
- b) Development applications for land within the River Environs Management Area should not be approved where it could reasonably be expected that the development may result in;
 - an obstruction to major river flows and increase flood levels upstream;
 - the removal of or damage to riparian vegetation or other nearby vegetation which influences the waterway; or
 - harm to water quality or habitat values of the waterway.

- c) Public works or community facilities may be permitted within the River Environs Management Area, subject to advice from the Department of Water that such public works can be designed and located in a manner so as to minimise flood risk, property damage and obstruction to river flow.
- d) For those areas within the River Environs Management Area where the Department of Water has identified the flood plain boundary, development will be subject to a minimum habitable floor level of 0.5m above the predicted 1 in 100-year flood level.

5.2.4 Referral of Applications

Local government may consult with the Department of Water and, if necessary, other relevant government or private organizations before determining any application. *AMD 14 GG 08/04/16*

5.3 **Special Control Area No. 2 – Public Drinking Water Source Areas**

5.3.1 Purpose

To identify the proclaimed Public Drinking Water Source Areas and to ensure that land use and development within PDWSAs is compatible with the protection and long-term management of water resources for public water supply.

5.3.2 Application Requirements

Development approval is required to construct or extend a dwelling or other building, or to carry out any other form of development on any land affected by this Special Control Area.

AMD 14 GG 08/04/16

5.3.3 Development Standards and Considerations

5.3.3.1 In determining land uses and development proposals within Special Control Areas, the local government will have due regard to relevant State Government policies, including Statement of Planning Policy No. 2.7 and the most recent Department of Environment, Water Catchment and Protection (DEWCP) Land Use Compatibility Tables for PDWSA's. *AMD 14 GG 08/04/16*

5.3.3.2 Notwithstanding, the permissibility of land uses in the Zoning Table, the following uses are not permitted within the PDWSA Special Control Areas:

- Abattoir;
- Piggery;
- Power Station;
- Fish Processing;
- Tannery; and
- Woollscouring.

5.3.3.3 In determining proposals, the local government is to have due regard to any comments or recommendations from DEWCP, and may impose relevant conditions to prevent or minimise the potential risk of groundwater contamination. Local government should also have regard to the management direction provided by the priority classification of certain areas, noting that:

- Priority 2 (P2) areas are defined to ensure there is no increased risk of pollution to the water source; and
- Priority 3 (P3) areas are defined to manage the risk of pollution to the water source.

AMD 14 GG 08/04/16

5.3.4 Referral of Applications

The local government is required to refer any development application which involves the following activities to the Department of Water for advice prior to determination of the application:

AMD 14 GG 08/04/16

- Potential for increased nutrient loading, in particular point source for nutrients, eg poultry farm, piggery;
- Application of fertilisers and pesticides;
- Storage of chemicals, fuels and other potentially polluting substances;
- Substantial increase in run-off; and
- Any other impact which local government considers could have an impact on the quality of public drinking water.

AMD 14 GG 08/04/16

5.4 **Special Control Area No. 3 – Basic Raw Materials Areas**

5.4.1 Purpose

To identify and protect important basic raw material resources and provide for their extraction and use in accordance with the State Planning Policy 2.4 - Basic Raw Materials.

5.4.2 Application Requirements

Development approval is required to construct or extend a dwelling or other building, or to carry out any other form of development on any land affected by this Special Control Area.

AMD 14 GG 08/04/16

5.4.3 Development Standards and Considerations

In determining land uses and development proposals within this Special Control Area local government will have due regard to relevant State Government policies, including State Planning Policy 2.4 - Basic Raw Materials.

AMD 14 GG 08/04/16

5.4.4 Referral of Applications

The local government is required to refer development applications to the Department of Mines and Petroleum for advice prior to determination of the application.

AMD 14 GG 08/04/16

5.5 **Special Control Area No. 4 – Wastewater Infrastructure Buffer Areas**

5.5.1 Purpose

To ensure compatibility of land use and development with Water and Wastewater Infrastructure.

5.5.2 Application Requirements

Development approval is required to develop a sensitive land use (as defined by the Environmental Protection Authority) on any land in this Special Control Area.

AMD 14 GG 08/04/16

5.5.3 Development Standards and Considerations

In considering any rezoning request, subdivision or development application the local government will have regard for the following:

AMD 14 GG 08/04/16

- a) the proximity to the emission source and estimated level of impact and/or risk on the use or development;
- b) the sensitivity of the proposed use or development to off-site emissions or risk; and

- c) any other relevant planning consideration.

5.5.4 Referral of Applications

The local government is required to refer development applications; and any proposed planning mechanism or planning policy relating to the SCA area to the relevant wastewater service provider for comment prior to determination.

AMD 14 GG 08/04/16

5.6 **Special Control Area No. 5 – Development Contribution Areas**

There are no Development Contribution Areas in this scheme as no development contribution plans have been prepared to support contributions. This section establishes enabling clauses for when a development contribution plan is prepared.

Note: This text should be deleted when the first amendment for development contributions is prepared.

5.6.1 Purpose

The purpose of development contribution areas is to:

- a) provide for the equitable sharing of the costs of infrastructure and administrative costs between owners;
- b) ensure that cost contributions are reasonably required as a result of the subdivision and development of land in the development contribution area; and
- c) coordinate the timely provision of infrastructure.

5.6.2 Development contributions

5.6.2.1 The *Planning and Development Act 2005* provides for local schemes to make agreements and recover expenses incurred in order to implement, enforce and give effect to the scheme.

5.6.2.2 Development contributions may be made for standard infrastructure such as roads, water, power, sewer and public open space through the subdivision process.

5.6.2.3 Community infrastructure includes, but is not limited to, public open space in rural areas, sporting and recreational facilities, community centres, child care centres, libraries and cultural facilities.

5.6.2.4 Development contributions for community infrastructure may only be levied in accordance with the requirements of State Planning Policy 3.6 - Development Contributions for Infrastructure. Prior to seeking contributions for community infrastructure local government needs to prepare:

AMD 14 GG 08/04/16

- (i) a community infrastructure plan for the area with demand analysis and service catchments;
- (ii) a capital expenditure plan;
- (iii) projected growth figures; and
- (iv) infrastructure costs, with provision for cost escalation.

5.6.2.5 Development contributions can be calculated and applied as either standard conditions of subdivision, conditions of development or through voluntary legal agreements. Provisions in this scheme relate to development contributions prepared through a scheme amendment process, and do not cover voluntary legal agreements between local government and developers.

AMD 14 GG 08/04/16

5.6.2.6 Development contributions for standard infrastructure can generally be summarised as:

- (i) land contributions - public open space, riverine setbacks, land for primary schools, roads and road widening and primary distributor roads where justified by the subdivision;
- (ii) infrastructure works - water, sewerage, drainage, electricity, roads and other traffic works, footpaths, pedestrian accessways and dual-use paths, road upgrades, construction and widening;
- (iii) standard water, sewerage and drainage headworks charges for off-site works, monetary contributions in lieu of land or works and to reimburse other owners where costs are shared;
- (iv) other contributions as provided for in WAPC policies.

5.6.2.7 Development contributions relate only to the provision of infrastructure and not the ongoing maintenance of said infrastructure.

5.6.2.8 For matters relating to the calculation and supporting information required to support a development contribution plan, the clauses of State Planning Policy 3.6 - Development contributions for infrastructure shall apply as if they were part of this scheme.

5.6.3 Principles for requiring development contributions

5.6.3.1 In considering development contributions, it must be demonstrated that the proposed development:

- (i) generates a need for the infrastructure;
- (ii) the calculation and application of the contributions is clear and transparent;
- (iii) contributions are levied equitably across a development contribution area;
- (iv) all development contributions are identified and methods for dealing with escalation be agreed upon at the commencement of a contribution arrangement;
- (v) contributions should be justified on a whole of life capital cost basis and prevent over-recovery of costs;
- (vi) landowners and developers are consulted on the manner of determining contributions and have the opportunity to seek review by an independent third party; and
- (vii) development contributions must be determined and expended in an accountable manner.

5.6.4 Development contribution areas and development contribution plans

5.6.4.1 Development contribution areas are shown on the scheme map and included in Schedule 10 of the scheme.

5.6.4.2 Development contribution areas must be supported by a development contribution plan, which are referenced in Schedule 10 of the scheme.

- 5.6.4.3 The content, form and process for preparing and implementing a development contribution plan is outlined in State Planning Policy 3.6 - Development contributions for infrastructure. For matters of process, valuation, arbitration or conflict resolution, the clauses of State Planning Policy 3.6 - Development contributions for infrastructure shall apply as if they were part of this scheme.
- 5.6.4.4 Development contribution plans may involve administrative costs involved in the preparation and implementation of the plan, including legal, accounting, planning, engineering and other professional advice.
- 5.6.4.5 Costs not identified in a development contribution plan may not be apportioned or levied at a later date.
- 5.6.4.6 A development contribution plan is only enforceable once it is incorporated into the scheme. This enacts the advertising and other provisions under the *Planning and Development (Local Planning Schemes) Regulations 2015* applicable to the making of schemes and amendments. *AMD 14 GG 08/04/16*
- 5.6.4.7 Any amendment to a development contribution plan will require a scheme amendment in order to become enforceable.

5.6.5 Payment of cost contributions

- 5.6.5.1 As a general principle, the local government incurs costs associated with a development contribution plan up-front, and then recoups costs from landowners. This may be varied by agreement between the parties.
- 5.6.5.2 The landowner's liability to pay the owner's cost contribution to the local government arises when:
- (i) the Western Australian Planning Commission endorses the deposited plan or survey strata plan of the subdivision of the owner's land within the development contribution area;
 - (ii) the commencement of any development on the owner's land within the development contribution area;
 - (iii) the approval of any strata plan by the local government or Western Australian Planning Commission on the owner's land within the development contribution area; or
 - (iv) the approval of a change or extension of use by the local government on the owner's land within the development contribution area.
- 5.6.5.3 The liability arises only once upon the earliest of the above listed events.

A permanent water supply of no less than 10,000 litres is to be maintained for bushfire fighting purposes.

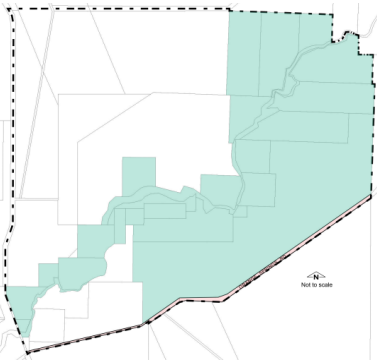

Schedule 9 — Future Development Zones

AMD 3 GG 25/09/15; AMD 14 GG 08/04/16

No.	Description of land	Conditions
1	Lot 1 Old Ledge Point Road and Lot 9001 Lancelin Road, Lancelin. AMD 14 GG 08/04/16	(1) When structure planning is undertaken for Lancelin South Stage 2 and beyond, the following is required: <ul style="list-style-type: none"> (i) Details of proposed staging; (ii) Preparation of a site level Landscape and Visual Impact Assessment, incorporating viewshed analysis, that informs the structure plan and guides subdivision and development; (iii) Identification and protection of north-south and west-east ecological corridors, addressing corridor width, function and management requirements and the interface with adjoining development; and (iv) Preparation of an Environmental Management Plan where structure planning is adjacent to the Conservation zone. (2) No subdivision is to occur outside of the Lancelin South Stage 1 structure plan area unless: <ul style="list-style-type: none"> (i) 75% of Lancelin South Stage 1 has been subdivided and developed; or (ii) Subdivision is provided for in an approved structure plan at a residential density of less than R5; or (iii) Subdivision is provided for in an approved structure plan at a residential density equal to or greater than R5 on land that is at or above 35m AHD. AMD 3 GG 25/09/15

Schedule 10 – General Rural (Coded) Zones

AMD 12 GG 06/09/16

No.	Description of land	Conditions
1	<p>Various lots on the north side of Orange Springs Road, Cowalla shown on the Scheme Map as GR 30 and highlighted in the map below.</p> 	<ol style="list-style-type: none"> Prior to any subdivision, the following is to be addressed: <ul style="list-style-type: none"> the lot layout is to respond to significant environmental features including flora, vegetation, fauna, wetlands (and associated buffers) and watercourses; and where a proposal contains a Conservation Category Wetland, property boundaries should be setback a minimum of 50 metres from the extent of the wetland. Where land adjoins or includes a watercourse, development should be setback a minimum of 30 metres from the top of the bank of the watercourse.
2	<p>Lot 100 (No. 1492) Bennies Road, Cowalla.</p> <p>AMD 22 GG 31/12/2021</p>	<ol style="list-style-type: none"> The portion of land north of Bennies Road being zoned 'General Rural – GR 320' and the portion of land south of Bennies Road being zoned 'General Rural – GR30' The subdivision lot layout is to retain remnant vegetation located on the site and is to generally accord with the subdivision concept plan (GR20/GR30) forming part of Amendment No. 22.

Schedule 11 – Tourism Conditions

AMD 16 GG 15/05/18

Description of Land	Conditions
Lot 2 (Plan 10531) Breton Bay, Seabird	<ol style="list-style-type: none"> 1. Subdivision and development is to be in accordance with an approved Structure Plan, which is to apply to the entire site. 2. The purpose and intent of the Structure Plan is to provide for the following: <ol style="list-style-type: none"> a) Staging of subdivision and development such that tourism is the dominant land use that precedes all other. b) Identification and establishment of the primary tourism function of the site at the first stage of subdivision and development. This includes integrated facilities that promote visitor and resident interaction. c) Protection of environmental values and attributes by ensuring the location, density, scale and nature of all development has regard for the landscape and environmental values of the area, including coastal processes. d) Appropriate provision for hazard separation and defensible space mechanisms to ensure siting and design of all development minimises the level of bushfire impact; and e) Identification of development and infrastructure ancillary to the tourism uses in the adjoining 'Conservation' zoned land, including subdivision. 3. The following requirements relate to the Structure Plan: <ol style="list-style-type: none"> a) The identification of potable water and wastewater infrastructure necessary to support future development, with such infrastructure being located on land zoned 'Tourism' where possible. b) Retain remnant vegetation generally within the 'Conservation' zone. Access tracks, recreational hiking trails and boardwalks, and firebreaks are permitted in the 'Conservation' zone. 4. Permissible land uses within the 'Tourism' zone are to be in accordance with Table 1 - Zoning Table, with the exception of the following: 'X' land uses: <ul style="list-style-type: none"> • Park Home Park 5. Subdivision of land within the 'Tourism' zone shall be limited to built or survey strata subdivision. 6. Prior to the approval of the Structure Plan, a Coastal Hazard Risk Management and Adaptation Plan shall be prepared in accordance with State Planning Policy 2.6 - Coastal Planning and approved by the local government with advice from the agency responsible for land use planning. The plan may make recommendations in regard to adjustments to boundaries and/or land tenure and is to demonstrate the northern-shoreline stability. 7. Prior to the approval of the Structure Plan, a local water management strategy shall be prepared and approved by the local government, on the advice of the State department responsible for water.

Description of Land	Conditions
Lot 2 (Plan 10531) Breton Bay, Seabird (Cont'd)	<p>8. Prior to the approval of a Structure Plan, a bushfire management plan and emergency evacuation plan shall be prepared and approved by the local government and the State department responsible for the fire and emergency services. The plans shall contain appropriate bushfire mitigation measures that are to be implemented as part of subdivision and/or development works at the first stage.</p> <p>9. Prior to the approval of the Structure Plan, a conservation management plan shall be prepared and approved by the local government, on the advice of the State department responsible for environment protection. The conservation management plan shall address the following measures:</p> <ul style="list-style-type: none"> a) identify the environmental values and attributes of the site which require ongoing management; and b) outline the specific management actions to be implemented. <p>Where practicable, measures may be added and implemented as part of the strata management statement as required by Clause 4.8.7.5.</p> <p>10. Prior to the commencement of subdivisional works, a foreshore management plan shall be prepared and approved by the local government and implemented at the first stage of subdivision.</p> <p>11. Prior to the commencement of subdivisional works, a construction and environmental management plan shall be prepared and approved by the local government. The construction and environmental management plan shall outline the construction management actions to be implemented and is to be consistent with the management actions identified in the conservation management plan.</p>

Schedule A — Planning and Development (Local Planning Schemes) Regulations 2015 Deemed Provisions for Local Planning Schemes

AMD 14 GG 08/04/16

Supplemental provisions to the deemed provisions

These provisions are to be read in conjunction with the deemed provisions set out in the *Planning and Development (Local Planning Schemes) Regulations 2015* Schedule 2.

Clause 61(1):

- (k)** the erection or installation of a sign or advertisement of a class specified in Schedule 5 of this Scheme that applies in respect of the sign unless the sign is to be erected or installed -
 - (i) on a place included on a heritage list prepared in accordance with this Scheme; or
 - (ii) on land located within an area designated under this Scheme as a heritage area.
- (l)** the erection or extension of a single house on a lot if a single house is a permitted (“P”) use in the zone (where the R Codes do not apply) in which that lot is located, where the development standards set out in the scheme for that particular zone (including boundary setbacks) are satisfied, unless the development is located in a place that is:
 - (i) entered in the Register of Heritage Places under the *Heritage of Western Australia Act 1990*; or
 - (ii) the subject of an order under Part 6 of the *Heritage of Western Australia Act 1990*; or
 - (iii) included on a heritage list prepared in accordance with this Scheme; or
 - (iv) within an area designated under the Scheme as a heritage area; or
 - (v) the subject of a heritage agreement entered into under the *Heritage of Western Australia Act 1990* section 29.
- (m)** the erection or extension of an outbuilding, external fixture, boundary wall or fence, patio, pergola, veranda, garage, carport or swimming pool on the same lot as a single house if a single house is a permitted (“P”) in the zone (where the R Codes do not apply) where the development standards set out in the scheme for that particular zone (including boundary setbacks) are satisfied, unless the development is located in a place that is:
 - (i) entered in the Register of Heritage Places under the *Heritage of Western Australia Act 1990*; or
 - (ii) the subject of an order under Part 6 of the *Heritage of Western Australia Act 1990*; or
 - (iii) included on a heritage list prepared in accordance with this Scheme; or
 - (iv) within an area designated under the Scheme as a heritage area; or
 - (v) the subject of a heritage agreement entered into under the *Heritage of Western Australia Act 1990* section 29.
- (n)** the erection, alteration or extension of any buildings used in conjunction with a rural pursuit in the General Rural zone, where the development complies with the provisions of the scheme.

- (o) the demolition of any building or structure except where the building or structure is:
- (i) located in a place that has been entered in the Register of Heritage Places under the *Heritage of Western Australia Act 1990*; or
 - (i) the subject of an order under Part 6 the *Heritage of Western Australia Act 1990*; or
 - (ii) included on the heritage list prepared in accordance with this Scheme; or
 - (iii) located within an area designated under the Scheme as a heritage area.

Clause 61(2):

- (g) the use of premises as a home occupation.
- (h) a rural pursuit in the General Rural zone.
