

QUALITY POLICY STATEMENT

The Resource and Environmental Regulation Group (RER Group) of the Department of Energy, Mines, Industry Regulation and Safety is responsible for the assessment, approval and management of resource tenure for exploration and production activities, including the provision of environmental approvals and compliance activities. Resource and Environmental Compliance Division (REC) is a Division of the Resource and Environmental Regulation Group (RER). REC operates offices located in East Perth (Head Office).

The REC Division operates and maintains a Management System that meets the requirements of ISO 9001:2015, legislation, regulations and subscribed codes of practice. REC's scope of ISO 9001:2015 certification covers the management of compliance and regulatory services.

The REC Division's objective is to use resources efficiently, minimise waste, support climate action initiatives and maintain a safe, healthy and friendly working environment for workers, visitors and the general public.

The REC Division and senior management are committed to meeting compliance obligations through the continued support and improvement of the Management System through:

- establishing quality management objectives;
- conducting regular management reviews and internal audits;
- maintaining regulation that is clear, relevant and enforced;
- behaving consistency and transparently;
- creating relationships that encourage compliance;
- fostering public trust and confidence;
- effectively managing workplace risks;
- creating a culture that will promote continual improvement;
- soliciting feedback from customer with regards to their expectations and satisfaction;
- committing necessary resources to enable these goals to be achieved; and
- exploring new approaches to achieve regulatory intent, incorporating climate action initiatives.
