

CMPAP Grants 2025-26				
Region	Project Title	Coastal Manager	Project Summary	Grant
South West	Peppermint Grove Beach and Dalyellup Foreshore Management Plans	Shire of Capel	The aim of this project is to develop Foreshore Management Plans (FMP) for Peppermint Grove Beach and Dalyellup, as identified in the Shire's CHRMAP (2023). These plans will guide the management of coastal infrastructure, reserves, land, and Aboriginal Heritage sites. Integrating best-practice environmental planning and coastal adaptation, the FMPs will provide a clear framework for future investment and ongoing management. They aim to protect the coastline, enhance natural spaces, and support sustainable tourism and economic growth. The FMPs will also strengthen the Shire's ability to secure funding for key projects, ensuring long-term resilience and sustainability for coastal areas.	\$60,000
South West	Back Beach Foreshore Management Plan	City of Bunbury	This project will develop a Foreshore Management Plan for the "Back Beach" in the City of Bunbury. The aim is to increase the protective capacity of the natural dune system and provide an avenue for increased awareness and education for stakeholders and the community about coastal processes and management.	\$85,000
Peel	Mandurah Estuarine Coastal Hazard Risk Management and Adaptation Plan (CHRMAP)	City of Mandurah	The aim of developing a CHRMAP for Mandurah's Estuarine areas is to identify and assess the risks posed by coastal hazards such as erosion, inundation from storm surge and sea-level rise. The CHRMAP will seek to protect the environmental, cultural, social and economic values of the region by guiding sustainable land use and infrastructure planning. It will provide a framework for the City to adapt to future coastal changes, ensuring community resilience and supporting informed decision-making to manage long-term risks in a proactive and cost-effective manner.	\$200,000
Pilbara	Onslow CHRMAP Review	Shire of Ashburton	This project will review the Shire's CHRMAP) that was prepared between 2015 and 2017. The CHRMAP requires updates to ensure that it reflects current coastal conditions, potential risks, Shire initiatives and stormwater patterns and provides a framework to review existing planning scheme provisions.	\$93,266.50
			TOTALS	\$438,266.50
