Part 1 – Preliminary

1. Citation

This local planning scheme is the Shire of Dardanup Scheme No. 9.

2. Commencement

Under section 87(4) of the Act, this local planning scheme comes into operation on the day on which it is published in the *Gazette*.

3. Scheme revoked

The following local planning scheme is revoked –

Name: Shire of Dardanup Local Planning Scheme No. 3.
Gazettal date: 16 March 1979.

4. Notes do not form part of Scheme

Notes, and instructions printed in italics, do not form part of this Scheme.

Note: The Interpretation Act 1984 section 32 makes provision in relation to whether headings form part of the written law.

5. Responsibility for Scheme

The Shire of Dardanup is the local government responsible for the enforcement and implementation of this Scheme and the execution of any works required to be executed under this Scheme.

6. Scheme area

This Scheme applies to the area shown on the Scheme Map.

Note: The Scheme area (or part) is also subject to the Greater Bunbury Region planning scheme (see clause 12) and other local planning schemes (see clause 11).

7. Contents of Scheme

(1) In addition to the provisions set out in this document (the ***scheme text***), this Scheme includes the following –

- (a) the deemed provisions (set out in the *Planning and Development (Local Planning Schemes) Regulations 2015* Schedule 2) including the supplemental provisions to the deemed provisions contained in Schedule A of the scheme text; and
- (b) the Scheme Map (Sheets 1 – 13).

(2) This Scheme is to be read in conjunction with any local planning strategy for the Scheme area.

8. Purposes of Scheme

The purposes of this Scheme are to –

- (a) set out the local government's planning aims and intentions for the Scheme area; and
- (b) set aside land as local reserves for public purposes; and
- (c) zone land within the Scheme area for the purposes defined in this Scheme; and
- (d) control and guide development including processes for the preparation of structure plans and local development plans; and
- (e) set out procedures for the assessment and determination of development applications; and
- (f) set out procedures for contributions to be made for the costs of providing infrastructure in connection with development through development contribution plans; and
- (g) make provision for the administration and enforcement of this Scheme; and
- (h) address other matters referred to in Schedule 7 of the Act.

9. Aims of Scheme

The aims of this Scheme are to –

- (1) implement the local planning strategy for the Scheme area.
- (2) Built form and development aims are to –
 - (a) establish a flexible planning framework that is responsive to demand, innovation and opportunities that may arise.
 - (b) deliver a diversity of housing types and lot sizes to accommodate all sectors of the population, respond to changing needs, facilitate ageing in place and provide a range of housing choices.
 - (c) encourage development that recognises the need for innovative and sustainable design and contemporary lifestyles.
- (3) Heritage aims are to –
 - (a) recognise and protect places of heritage significance as identified on the heritage list prepared under clause 8 of the deemed provisions.
 - (b) preserve heritage values, amenity and areas of cultural significance and integrate new built environments with the existing local character.
 - (c) encourage the use (including adaptive re-use) of heritage places for a range of appropriate purposes to ensure they are conserved, maintained and serve a purpose to the community.
- (4) Environment aims are to –
 - (a) protect and enhance landscape, environmental, biodiversity, ecological and scenic values from inappropriate development and improve the sustainable management of natural resources.
 - (b) preserve the character and amenity of the built form and natural environment.

- (5) Community and population aims are to –
- (a) provide the community with a diverse range of high quality integrated public open spaces to encourage physical activity and social interaction.
 - (b) facilitate a high level of flexibility in the use of public open space to accommodate active and passive recreation and community facilities networks for the changing needs of the community.
 - (c) support community wellbeing by promoting active, connected, safe and secure pursuits for all.
 - (d) facilitate the cost sharing of infrastructure upgrades to facilitate population growth in an equitable manner between stakeholder groups.
- (6) Economy aims are to –
- (a) support the growth of the local economy to attract business, investment and tourism and generate local employment opportunities.
 - (b) establish a planning framework that encourages economic growth through the provision of flexible controls that cater for innovation and are responsive to the changing economic environment.
- (7) Tourism aims are to –
- (a) encourage tourism development that is compatible with existing land uses and protects the scenic values of the local government, through the establishment of appropriate planning controls.
 - (b) encourage a diverse tourist industry that complements the natural environment and stimulates sustainable economic development and creates employment opportunities.
 - (c) encourage a variety of tourism type uses that enable local business to capitalise on the local government's reputation as a premier tourist destination, particularly the Ferguson Valley.
- (8) Transport and infrastructure aims are to –
- (a) ensure the orderly and proper provision of integrated services and infrastructure to service the current population and cater for future growth.
 - (b) facilitate the efficient movement of traffic throughout the local government area by establishing a well-planned road network that supports sustainable growth.
 - (c) encourage measures to reduce the reliance on private vehicle usage including increased public transport options and the provision of a shared use path network to facilitate increased pedestrian and cycle use.
- (9) Agriculture aims are to –
- (a) ensure the protection and sustainable use of productive agricultural land and minimise land use conflicts.

10. Relationship with local laws

Where a provision of this Scheme is inconsistent with a local law, the provision of this Scheme prevails to the extent of the inconsistency.

11. Relationship with other local planning schemes

The following local planning scheme of the Shire of Dardanup and the Shire of Harvey also apply in the Scheme area –

Name: Shire of Harvey and Shire of Dardanup Joint Town Planning Scheme No. 1.
Gazettal date: 17 March 2006.

12. Relationship with region planning scheme

The Greater Bunbury Region Scheme made (or continued) under Part 4 of the Act applies in respect of part or all of the Scheme area.

Note: The authority responsible for implementing the Greater Bunbury Region Scheme is the Western Australian Planning Commission.

Part 2 – Reserves

13. Regional Reserves

- (1) Regional reserves are marked on the Scheme Map according to the legend on the Scheme Map.
- (2) The lands marked as regional reserves are lands reserved for a public purpose under the Greater Bunbury Region Scheme.

Note: The process of reserving land under a regional planning scheme is separate from the process of reserving land under the Land Administration Act 1997 section 41.

14. Local reserves

- (1) In this clause –

Department of Main Roads means the department principally assisting in the administration of the *Main Roads Act 1930*;

Western Australian Road Hierarchy means the document of that name available on the website maintained by the Department of Main Roads.

- (2) Local reserves are shown on the Scheme Map according to the legend on the Scheme Map.
- (3) The objectives of each local reserve are as follows –

15. Additional uses for local reserves

(1) The Table in Schedule 1 sets out –

- (a) classes of use for specified land located in local reserves that are additional to classes of use determined in accordance with the objectives of the reserve; and
- (b) the conditions that apply to that additional use.

(2) Despite anything contained in clause 14, land that is specified in the Table to subclause (1) may be used for the additional class of use set out in respect of that land subject to the conditions that apply to that use.

Part 3 – Zones and use of land

16. Zones

- (1) Zones are shown on the Scheme Map according to the legend on the Scheme Map.
- (2) The objectives of each zone are as follows –

Table 2 – Zone objectives

Zone name	Objectives
Commercial	<ul style="list-style-type: none">• To provide for a range of shops, offices, restaurants and other commercial outlets in defined townsites or activity centres.• To maintain the compatibility with the general streetscape or to improve the existing streetscape, for all new buildings in terms of scale, height, style, materials, street alignment and design of facades.• To ensure that development is not detrimental to the amenity of adjoining owners or residential properties in the locality.

General Industry	<ul style="list-style-type: none">• To provide for a broad range of industrial, service and storage activities which, by the nature of their operations, should be isolated from residential and other sensitive land uses.• To accommodate industry that would not otherwise comply with the performance standards of light industry.• Seek to manage impacts such as noise, dust and odour within the zone.
Industrial Development	<ul style="list-style-type: none">• To designate land for future industrial development.• To provide a basis for future detailed planning in accordance with the structure planning provisions of this Scheme.
Light Industry	<ul style="list-style-type: none">• To provide for a range of industrial uses and service industries generally compatible with urban areas, that cannot be located in commercial zones.• To ensure that where any development adjoins zoned or developed residential properties, the development is suitably set back, screened or otherwise treated so as not to detract from the residential amenity.

Mixed Use	<ul style="list-style-type: none"> • To provide for a wide variety of active uses on street level which are compatible with residential and other non-active uses on upper levels. • To allow for the development of a mix of varied but compatible land uses such as housing, offices, showrooms, amusement centres, eating establishments and appropriate industrial activities which do not generate nuisances detrimental to the amenity of the district or to the health, welfare and safety of its residents.
Priority Agriculture	<ul style="list-style-type: none"> • To identify land of State, regional or local significance for food production purposes. • To retain priority agricultural land for agricultural purposes. • To limit the introduction of sensitive land uses which may compromise existing, future and potential agricultural production.
Private Community Purposes	<ul style="list-style-type: none"> • To provide sites for privately owned and operated recreation, institutions and places of worship. • To integrate private recreation areas with public recreation areas wherever possible. • To separate potentially noisy engine sports from incompatible uses. • To provide for a range of privately owned community facilities, and uses that are incidental and ancillary to the provision of those facilities, which are compatible with surrounding development. • To ensure that the standard of development is in keeping with surrounding development and protects the amenity of the area.
Residential	<ul style="list-style-type: none"> • To provide for a range of housing and a choice of residential densities to meet the needs of the community. • To facilitate and encourage high quality design, built form and streetscapes throughout residential areas. • To provide for a range of non-residential uses, which are compatible with and complementary to residential development.
Rural	<ul style="list-style-type: none"> • To provide for the maintenance or enhancement of specific local rural character. • To protect and accommodate broad acre agricultural activities such as cropping, and grazing and intensive uses such as horticulture as primary uses, with other rural pursuits and rural industries as secondary uses in circumstances where they demonstrate compatibility with the primary use. • To maintain and enhance the environmental qualities of the landscape, vegetation, soils and water bodies, to protect sensitive areas especially the natural valley and watercourse systems from damage. • To provide for the operation and development of existing, future and potential rural land uses by limiting the introduction of sensitive land uses in the Rural zone. • To provide for a range of non-rural land uses where they have demonstrated benefit and are compatible with surrounding rural uses.

Rural Residential	<ul style="list-style-type: none"> • To provide for lot sizes in the range of 1 ha to 4 ha. • To provide opportunities for a range of limited rural and related ancillary pursuits on rural residential lots where those activities will be consistent with the amenity of the locality and the conservation and landscape attributes of the land. • To set aside areas for the retention of vegetation and landform or other features which distinguish the land.
Rural Smallholdings	<ul style="list-style-type: none"> • To provide for lot sizes in the range of 4 ha to 40 ha. • To provide for a limited range of rural land uses where those activities will be consistent with the amenity of the locality and the conservation and landscape attributes of the land. • To set aside areas for the retention of vegetation and landform or other features which distinguish the land.
Service Commercial	<ul style="list-style-type: none"> • To accommodate commercial activities which, because of the nature of the business, require good vehicular access and/or large sites. • To provide for a range of wholesale sales, showrooms, trade and services which, by reason of their scale, character, operational or land requirements, are not generally appropriate in, or cannot conveniently or economically be accommodated in, the central area, shops and offices or industrial zones.
Special Use	<ul style="list-style-type: none"> • To facilitate special categories of land uses which do not sit comfortably within any other zone. • To enable the local government to impose specific conditions associated with the special use.
Tourism	<ul style="list-style-type: none"> • To promote and provide for tourism opportunities. • To provide for a variety of holiday accommodation styles and associated uses, including retail and service facilities where those facilities are provided in support of the tourist accommodation and are of an appropriate scale where they will not impact detrimentally on the surrounding or wider area. • To allow limited residential uses where appropriate. • To encourage the location of tourist facilities so that they may benefit from existing road services, physical service infrastructure, other tourist attractions, natural features and urban facilities.
Urban Development	<ul style="list-style-type: none"> • To provide an intention of future land use and a basis for more detailed structure planning in accordance with the provisions of this Scheme. • To provide for a range of residential densities to encourage a variety of residential accommodation. • To provide for the progressive and planned development of future urban areas for residential purposes and for commercial and other uses normally associated with residential development. • To provide an intermediate transitional zone following the lifting of an urban deferred zoning within the Greater Bunbury Region Scheme.

18. Interpreting zoning table

- (1) The permissibility of uses of land in the various zones in the Scheme area is determined by cross-reference between the list of use classes on the left hand side of the zoning table and the list of zones at the top of the zoning table.
- (2) The symbols used in the zoning table have the following meanings –
 - P means that the use is permitted if it complies with any relevant development standards and requirements of this Scheme;
 - I means that the use is permitted if it is consequent on, or naturally attaching, appertaining or relating to the predominant use of the land and it complies with any relevant development standards and requirements of this Scheme;
 - D means that the use is not permitted unless the local government has exercised its discretion by granting development approval;

- A means that the use is not permitted unless the local government has exercised its discretion by granting development approval after advertising the application in accordance with clause 64 of the deemed provisions;
- X means that the use is not permitted by this Scheme.

Notes for this clause:

1. *The development approval of the local government may be required to carry out works on land in addition to any approval granted for the use of land. In normal circumstances 1 application is made for both the carrying out of works on, and the use of, land.*
2. *Under clause 61 of the deemed provisions, certain works and uses are exempt from the requirement for development approval.*
3. *Clause 67 of the deemed provisions deals with the consideration of applications for development approval by the local government. Under that clause, development approval cannot be granted for development that is a class X use in relation to the zone in which the development is located, except in certain circumstances where the land is being used for a non-conforming use.*

- (3) A specific use class referred to in the zoning table is excluded from any other use class described in more general terms.
- (4) The local government may, in respect of a use that is not specifically referred to in the zoning table and that cannot reasonably be determined as falling within a use class referred to in the zoning table –
 - (a) determine that the use is consistent with the objectives of a particular zone and is therefore a use that may be permitted in the zone subject to conditions imposed by the local government; or
 - (b) determine that the use may be consistent with the objectives of a particular zone and advertise under clause 64 of the deemed provisions before considering an application for development approval for the use of the land; or
 - (c) determine that the use is not consistent with the objectives of a particular zone and is therefore not permitted in the zone.
- (5) If a use of land is identified in a zone as being a class P or class I use, the local government may not refuse an application for development approval for that use in that zone but may require works that are to be undertaken in connection with that use to have development approval.
- (6) If the zoning table does not identify any permissible uses for land in a zone the local government may, in considering an application for development approval for land within the zone, have due regard to any of the following plans that apply to the land –
 - (a) a structure plan;
 - (b) a local development plan.

19. Additional uses

- (1) The Table in Schedule 2 sets out –
 - (a) classes of use for specified land that are additional to the classes of use that are permissible in the zone in which the land is located; and
 - (b) the conditions that apply to that additional use.

- (2) Despite anything contained in the zoning table, land that is specified in the Table to subclause (1) may be used for the additional class of use set out in respect of that land subject to the conditions that apply to that use.

20. Restricted uses

- (1) The Table in Schedule 3 sets out –
 - (a) restricted classes of use for specified land that apply instead of the classes of use that are permissible in the zone in which the land is located; and
 - (b) the conditions that apply to that restricted use.
- (2) Despite anything contained in the zoning table, land that is specified in the Table to subclause (1) may be used only for the restricted class of use set out in respect of that land subject to the conditions that apply to that use.

21. Special use zones

- (1) The Table in Schedule 4 sets out –
 - (a) special use zones for specified land that are in addition to the zones in the zoning table; and
 - (b) the classes of special use that are permissible in that zone; and
 - (c) the conditions that apply in respect of the special uses.
- (2) A person must not use any land, or any structure or buildings on land, in a special use zone except for a class of use that is permissible in that zone and subject to the conditions that apply to that use.

Note: Special use zones apply to special categories of land use which do not comfortably sit within any other zone in the Scheme.

22. Non-conforming uses

- (1) Unless specifically provided, this Scheme does not prevent –
 - (a) the continued use of any land, or any structure or building on land, for the purpose for which it was being lawfully used immediately before the commencement of this Scheme; or
 - (b) the carrying out of development on land if –
 - (i) before the commencement of this Scheme, the development was lawfully approved; and
 - (ii) the approval has not expired or been cancelled.
- (2) Subclause (1) does not apply if –
 - (a) the non-conforming use of the land is discontinued; and
 - (b) a period of 6 months, or a longer period approved by the local government, has elapsed since the discontinuance of the non-conforming use.

- (3) Subclause (1) does not apply in respect of a non-conforming use of land if, under Part 11 of the Act, the local government –
 - (a) purchases the land; or
 - (b) pays compensation to the owner of the land in relation to the non-conforming use.

23. Changes to non-conforming uses

- (1) A person must not, without development approval –
 - (a) alter or extend a non-conforming use of land; or
 - (b) erect, alter or extend a building used for, or in conjunction with, a non-conforming use; or
 - (c) repair, rebuild, alter or extend a building used for a non-conforming use that is destroyed to the extent of 75% or more of its value; or
 - (d) change the use of land from a non-conforming use to another use that is not permitted by the Scheme.
- (2) An application for development approval for the purposes of this clause must be advertised in accordance with clause 64 of the deemed provisions.
- (3) A local government may only grant development approval for a change of use of land referred to in subclause (1)(d) if, in the opinion of the local government, the proposed use –
 - (a) is less detrimental to the amenity of the locality than the existing non-conforming use; and
 - (b) is closer to the intended purpose of the zone in which the land is situated.

24. Register of non-conforming uses

- (1) The local government may prepare a register of land within the Scheme area that is being used for a non-conforming use.
- (2) A register prepared by the local government must set out the following –
 - (a) a description of each area of land that is being used for a non-conforming use;
 - (b) a description of any building on the land;
 - (c) a description of the non-conforming use;
 - (d) the date on which any discontinuance of the non-conforming use is noted.
- (3) If the local government prepares a register under subclause (1) the local government –
 - (a) must ensure that the register is kept up-to-date; and
 - (b) must ensure that an up-to-date copy of the register is published in accordance with clause 67 of the deemed provisions.
- (4) Subclause (3)(b) is an ongoing publication requirement for the purposes of clause 87(5)(a) of the deemed provisions.
- (5) An entry in the register in relation to land that is being used for a non-conforming use is evidence of the matters set out in the entry, unless the contrary is proved.

Part 4 – General development requirements

25. R-Codes

- (1) The R-Codes, modified as set out in clause 26, are to be read as part of this Scheme.
- (2) The local government must ensure that the R-Codes are published in accordance with clause 87 of the deemed provisions.
- (3) Subclause (2) is an ongoing publication requirement for the purposes of clause 87(5)(a) of the deemed provisions.
- (4) The coding of land for the purposes of the R-Codes is shown by the coding number superimposed on a particular area contained within the boundaries of the area shown on the Scheme Map.
- (5) The R-Codes apply to an area if –
 - (a) the area has a coding number superimposed on it in accordance with subclause (4); or
 - (b) a provision of this Scheme provides that the R-Codes apply to the area.

26. Modification of R-Codes

For land with an R-Code of R2.5 or lower, front fences shall be visually permeable above natural ground level with a maximum height of 1.2 m and with an open style, post and rail or wire design.

29. Other planning codes to be read as part of Scheme

- (1) The planning codes set out in the Table, modified as set out in clause 30, are to be read as part of this Scheme.

Other planning codes to be read as part of Scheme
There are no other planning codes that are to be read as part of Scheme

- (2) The local government must ensure that each planning code referred to in the Table to subclause (1) is published in accordance with clause 87 of the deemed provisions.
- (3) Subclause (2) is an ongoing publication requirement for the purposes of clause 87(5)(a) of the deemed provisions.

30. Modification of planning codes

There are no modifications to a planning code that, under clause 29, is to be read as part of the Scheme.

31. Environmental conditions

- (1) The conditions set out in the Table in Schedule 6 are environmental conditions that apply to this Scheme as a result of an assessment carried out under the *Environmental*

Protection Act 1986 Part IV Division 3.

- (2) The environmental conditions are indicated on the Scheme Map by the symbol EC to indicate that environmental conditions apply to the land.
- (3) The local government must ensure that all statements relating to this Scheme published under the *Environmental Protection Act 1986 Part IV Division 3* are published in accordance with clause 87 of the deemed provisions.
- (4) Subclause (3) is an ongoing publication requirement for the purposes of clause 87(5)(a) of the deemed provisions.

32. Additional site and development requirements

- (1) The Table in Schedule 7 sets out requirements relating to development that are additional to those set out in the R-Codes or other planning codes listed under Clause 29, precinct structure plans, local development plans or State or local planning policies.
- (2) To the extent that a requirement referred to in subclause (1) is inconsistent with a requirement in the R-Codes or other planning codes listed under Clause 29, a precinct structure plan, a local development plan or a State or local planning policy the requirement referred to in subclause (1) prevails.

33. Additional site and development requirements for areas covered by a structure plan or local development plan

The Table in Schedule 8 sets out requirements relating to development that are included in precinct structure plans, structure plans approved before 19 October 2015 and local development plans that apply in the Scheme area.

34. Variations to site and development requirements

- (1) In this clause –

additional site and development requirements means requirements set out in clauses 32 and 33.
- (2) The local government may approve an application for a development approval that does not comply with an additional site and development requirements.
- (3) An approval under subclause (2) may be unconditional or subject to any conditions the local government considers appropriate.
- (4) If the local government is of the opinion that the non-compliance with an additional site and development requirement will mean that the development is likely to adversely affect any owners or occupiers in the general locality or in an area adjoining the site of the development the local government must –
 - (a) consult the affected owners or occupiers by following one or more of the provisions for advertising applications for development approval under clause 64(4) of the deemed provisions; and

- (b) have regard to any expressed views prior to making its determination to grant development approval under this clause.
- (5) The local government may only approve an application for development approval under this clause if the local government is satisfied that –
 - (a) approval of the proposed development would be appropriate having regard to the matters that the local government is to have regard to in considering an application for development approval as set out in clause 67(2) of the deemed provisions; and
 - (b) the non-compliance with the additional site and development requirement will not have a significant adverse effect on the occupiers or users of the development, the inhabitants of the locality or the likely future development of the locality.

35. Restrictive covenants

- (1) A restrictive covenant affecting land in the Scheme area that would have the effect of limiting the number of residential dwellings which may be constructed on the land is extinguished or varied to the extent that the number of residential dwellings that may be constructed is less than the number that could be constructed on the land under this Scheme.
- (2) If subclause (1) operates to extinguish or vary a restrictive covenant –
 - (a) development approval is required to construct a residential dwelling that would result in the number of residential dwellings on the land exceeding the number that would have been allowed under the restrictive covenant; and
 - (b) the local government must not grant development approval for the construction of the residential dwelling unless it advertises the application for development approval in accordance with clause 64 of the deemed provisions.

Part 5 – Special control areas

36. Special control areas

- (1) Special control areas are marked on the Scheme Map according to the legend on the Scheme Map.
- (2) The purpose, objectives and additional provisions that apply to each special control area is set out in the Table in Schedule 10.

36A. Development Contribution Areas

(1) Interpretation

Unless the context otherwise requires, the meaning of terms used in the development contribution special control area are as follows –

administrative costs means such costs as are reasonably required to be carried out by or on behalf of the local government in order to prepare and (with respect to standard infrastructure items) implement the development contribution plan, including legal, accounting, planning, engineering and other professional advice;

cost apportionment schedule means a schedule prepared and distributed in accordance with subclause (10);

cost contribution means the contribution to the cost of infrastructure and administrative costs;

development contribution area means the special control area shown on the Scheme Map as ‘SCA’ with a number;

development contribution plan means a development contribution plan prepared in accordance with the provisions of State Planning Policy 3.6 – Infrastructure Contributions;

development contribution plan report means a report prepared and distributed in accordance with subclause (10);

infrastructure means the standard infrastructure items (services and facilities set out in Appendix 1 – Standard development contribution requirements of State Planning Policy 3.6 – Infrastructure Contributions) and community facilities and such other services and facilities for which development contributions may reasonably be requested having regard to the objectives, scope and provisions of this policy;

infrastructure costs means such costs as are reasonably incurred for the acquisition and construction of infrastructure;

landowner means an owner of land that is located within a development contribution area;

local government means the local government or local governments in which the development contribution is located or through which the services and facilities are provided.

(2) Development contribution plan required

A development contribution plan is required to be prepared for each development contribution area.

(3) Development contributions plans part of Scheme

Development contribution plans are incorporated in Schedule 11 as part of this Scheme.

(4) Subdivision, strata subdivision and development

The local government shall not withhold its support for subdivision, strata subdivision or refuse to approve a development solely for the reason that a development contribution plan is not in effect, there is no approval to advertise a development contribution plan, or that there is no other arrangement with respect to a landowner's contribution towards the provision of community infrastructure.

(5) Guiding principles for development contribution plans

The development contribution plan for any development is to be prepared in accordance with the following principles –

- (a) Need and the nexus – The need for the infrastructure included in the plan must be clearly demonstrated (need) and the connection between the development and the demand created should be clearly established (nexus);
- (b) Transparency – Both the method for calculating the development contribution and the manner in which it is applied should be clear, transparent and simple to understand and administer;
- (c) Equity – Development contributions should be levied from all developments within a contribution area, based on their relative contribution to need;
- (d) Certainty – All development contributions should be clearly identified and methods for of accounting for cost adjustments determined based at the commencement of a development;
- (e) Efficiency – Development contributions should be justified on a whole of life capital cost basis consistent with maintaining financial discipline on service providers by precluding over recovery of costs;
- (f) Consistency – Development contributions should be applied uniformly across a development contribution area and the methodology for applying contributions should be consistent;
- (g) Right of consultation and review – Owners have the right to be consulted on the manner in which development contributions are determined. They also have the opportunity to seek a review by independent third party if they believe the calculation of the costs of the contributions is not reasonable; and
- (h) Accountable – There must be an accountability in the manner in which development contributions are determined and expended.

(6) Content of development contribution plans

The development contribution plan is to specify –

- (a) The development contribution area to which the development contribution plan applies;
- (b) the infrastructure and administrative items to be funded through the development contribution plan;
- (c) the method of determining the cost contribution of each landowner; and
- (d) the priority and timing for the provision of infrastructure.

Note: A suggested outline of a Development Contribution Plan is contained in State Planning Policy 3.6 – Infrastructure Contributions.

(7) Period of development contribution plan

A development contribution plan shall specify the period during which it is to operate.

(8) Land excluded

In calculating both the area of an landowner's land and the total area of land in a development contribution area, the area of land provided in that development contribution area for –

- (a) roads designated under the Greater Bunbury Region Scheme as Primary Regional Roads Reserve and Other Regional Roads Reserve;
- (b) land designated as Regional Open Space Reserve and Public Purposes Reserve under the Greater Bunbury Region Scheme;
- (c) existing public open space;
- (d) existing government primary and secondary schools; and
- (e) such other land as is set out in the development contribution plan, is to be excluded.

(9) Development contribution plan report and cost apportionment schedule

- (a) Within 90 days of the development contribution plan coming into effect, the local government is to adopt and make available a development contribution plan report and cost apportionment schedule to all owners in the development contribution area.
- (b) The development contribution plan report and the cost apportionment schedule shall set out in detail the calculation of the cost contribution for each landowner in the development contribution area, based on the methodology provided in the development contribution plan, and shall take into account any proposed staging of the development.
- (c) The development contribution plan report and the cost apportionment schedule do not form part of the scheme, but once adopted by the local government they are subject to review as provided under subclause 10.

Note: A suggested outline of a development contribution plan report and a cost apportionment schedule are contained in State Planning Policy 3.6 – Infrastructure Contributions. The cost apportionment schedule is adopted by the local government but does not form part of the Scheme.

(10) Cost contributions based on estimates

- (a) The determination of infrastructure costs and administrative costs is to be based on amounts expended, but when expenditure has not occurred, it is to be based on the best and latest estimated costs available to the local government and adjusted accordingly, if necessary.
- (b) Where a cost apportionment schedule contains estimated costs, such estimated costs are to be reviewed at least annually by the local government –
 - (i) in the case of land to be acquired, in accordance with subclause (12); and
 - (ii) in all other cases, in accordance with the best and latest information available to the local government,
 - (iii) until the expenditure on the relevant item of infrastructure or administrative costs has occurred.
- (c) The local government may have such estimated costs independently certified by an appropriately qualified person or persons, and must provide such independent certification to a landowner when requested to do so.
- (d) Where any cost contribution has been calculated on the basis of an estimated cost, the local government –
 - (i) is to adjust the cost contribution of any landowner in accordance with the revised estimated costs; and
 - (ii) may accept a cost contribution, based upon estimated costs, as a final cost contribution and enter into an agreement with the landowner accordingly.
- (e) Where a landowner's cost contribution is adjusted under subclause (11)(d), the local government, on receiving a request in writing from a landowner, is to provide the landowner with a copy of estimated costs and the calculation of adjustments.
- (f) If a landowner objects to the amount of a cost contribution, the landowner may give notice in writing to the local government requesting a review of the amount of the cost contribution by an appropriately qualified person or persons ('independent expert') agreed by the local government and the landowner at the landowner's expense, within 28 days after being

informed of the cost contribution.

- (g) If the independent expert does not change the cost contribution to a figure acceptable to the landowner, the cost contribution is to be determined –
 - (i) by any method agreed between the local government and the landowner; or
 - (ii) if the local government and the landowner cannot agree on a method pursuant to (a) or on an independent expert, by arbitration in accordance with the *Commercial Arbitration Act 1985*, with the costs to be shared equally between the local government and landowner.

(11) Valuation

- (a) This clause applies in order to determine the value of land to be acquired for the purpose of providing infrastructure.
- (b) In this clause –

value means the fair market value of land, at a specified date, which is defined as the capital sum that would be negotiated in an arm's length transaction in an open and unrestricted market, assuming the highest and best use of the land with all its potential and limitations (other than the limitation arising from the transaction for which the land is being valued), wherein the parties act knowledgeably, prudently and without compulsion to buy or sell.

The net land value is to be determined by a static feasibility valuation model, using the working sheet model attached to this Scheme as Schedule 11. As part of that feasibility an appropriate profit and risk factor is to be determined from which a 10% profit factor is to be excluded from the calculation.

valuer means a licensed valuer agreed by the local government and the landowner, or, where the local government and the landowner are unable to reach agreement, by a valuer appointed by the President of the Western Australian Division of the Australian Property Institute.

- (c) If a landowner objects to a valuation made by the valuer, the landowner may give notice in writing to the local government requesting a review of the amount of the value, at the landowner's expense, within 28 days after being informed of the value.
- (d) If, following a review, the valuer's determination of the value of the land is still not a figure acceptable to the landowner, the value is to be determined –
 - (i) by any method agreed between the local government and the landowner; or
 - (ii) if the local government and the landowner cannot agree, the landowner may apply to the State Administrative Tribunal for a review of the matter under Part 14 of the *Planning and Development Act 2005*.

(12) Liability for cost contributions

- (a) A landowner must make a cost contribution in accordance with the applicable development contribution plan and the provisions of subclause (10).
- (b) A landowner's liability to pay the landowner's cost contribution to the local government arises on the earlier of –
 - (i) at the time of seeking clearances of conditions of subdivision or strata subdivision from the local government;
 - (ii) the Western Australian Planning Commission endorsing its approval on the deposited plan or survey strata plan of the subdivision of the landowner's land within the development contribution area;
 - (iii) prior to the commencement of any development on the landowner's land within the development contribution area;

- (iv) prior to the final approval and endorsement of any strata plan by the local government or Western Australian Planning Commission on the landowner's land within the development contribution area; or
- (v) the approval of a change or extension of use by the local government on the landowner's land within the development contribution area.

The liability arises only once upon the earliest of the above listed events.

- (c) Despite subclause (13)(b), a landowner's liability to pay the landowner's cost contribution does not arise if the landowner commences development of the first single house or outbuildings associated with that first single house on an existing lot which has not been subdivided or strata subdivided since the coming into effect of the development contribution plan.
- (d) Where a development contribution plan expires in accordance with subclause (8), a landowner's liability to pay the landowner's cost contribution under that development contribution plan shall be deemed to continue in effect and be carried over into any subsequent development contribution plan which includes the landowner's land, subject to such liability.

(13) Payment of cost contribution

- (a) The landowner, with the agreement of the local government, is to pay the landowner's cost contribution by –
 - (i) cheque or cash; or
 - (ii) transferring to the local government or a public authority land in satisfaction of the cost contribution; or
 - (iii) the provision of physical infrastructure; or
 - (iv) some other method acceptable to the local government; or
 - (v) any combination of these methods.
- (b) The landowner, with the agreement of the local government, may pay the landowner's cost contribution in a lump sum, by instalments or in such other manner acceptable to the local government.
- (c) Payment by a landowner of the cost contribution, including a cost contribution based upon estimated costs in a manner acceptable to the local government, constitutes full and final discharge of the landowner's liability under the Development Contribution Plan and the local government shall provide certification in writing to the landowner of such discharge if requested by the landowner.

(14) Charge on land

- (a) The amount of any cost contribution for which a landowner is liable under subclause (14), but has not paid, is a charge on the landowner's land to which the cost contribution relates, and the local government may lodge a caveat, at the landowner's expense, against the landowner's certificate of title to that land.
- (b) The local government, at the landowner's expense and subject to such other conditions as the local government thinks fit, can withdraw a caveat lodged under subclause (15)(a) to permit a dealing and may then re-lodge the caveat to prevent further dealings.
- (c) If the cost contribution is paid in full, the local government, if requested to do so by the landowner and at the expense of the landowner, is to withdraw any caveat lodged under subclause (15).

(15) Administration of funds

- (a) The local government is to establish and maintain a reserve account in accordance with the *Local Government Act 1995* for each development contribution area into which cost contributions for that development contribution area will be credited and from which all payments for the infrastructure costs and administrative costs within that development

contribution area will be paid. The purpose of such a reserve account or the use of money in such a reserve account is limited to the application of funds for that development contribution area.

- (b) Interest earned on cost contributions credited to a reserve account in accordance with subclause (16)(a) is to be applied in the development contribution area to which the reserve account relates.
- (c) The local government is to produce an annual statement of accounts for that development contribution area as soon as practicable after the audited annual statement of accounts becomes available.

(16) Shortfall or excess in cost contributions

- (a) If there is a shortfall in the total of cost contributions when all cost contributions have been made or accounted for in a particular development contribution area, the local government may –
 - (i) make good the shortfall; or
 - (ii) enter into agreements with owners to fund the shortfall; or
 - (iii) raise loans or borrow from a financial institution,but nothing in subclause (17)(a)(i) restricts the right or power of the local government to impose a differential rate to a specified development contribution area in that regard.
- (b) If there is an excess in funds available to the development contribution area when all cost contributions have been made or accounted for in a particular development contribution area, the local government is to refund the excess funds to contributing owners for that development contribution area. To the extent, if any, that it is not reasonably practicable to identify owners and / or their entitled amount of refund, any excess in funds shall be applied, to the provision of additional facilities or improvements in that development contribution area.

(17) Powers of the local government

The local government in implementing the development contribution plan has the power to –

- (a) acquire any land or buildings within the Scheme area under the provisions of the Act; and
- (b) deal with or dispose of any land which it has acquired under the provisions of the Act in accordance with the law and for such purpose may make such agreements with other owners as it considers fit.

(18) Arbitration

Subject to subclause (12)(c) and (d), any dispute between a landowner and the local government in connection with the cost contribution required to be made by a landowner is to be resolved by arbitration in accordance with the *Commercial Arbitration Act 1985*.

(19) Transitional provisions

Clause 36A and associated sub-clauses shall cease to have effect two years from scheme commencement day.

Part 6 – Terms referred to in Scheme

Division 1 – General definitions used in Scheme

37. Terms used

- (1) If a word or expression used in this Scheme is listed in this clause, its meaning is as follows –

building envelope means the area of land within which all buildings and effluent disposal facilities on a lot must be contained.

building exclusion area means the area of land within which all buildings and effluent disposal facilities on a lot must not be located.

cabin means a dwelling forming part of a tourist development or caravan park that is –

- (a) an individual unit other than a chalet; and
- (b) designed to provide short-term accommodation for guests.

chalet means a dwelling forming part of a tourist development or caravan park that is –

- (a) a self-contained unit that includes cooking facilities, bathroom facilities and separate living and sleeping areas; and
- (b) designed to provide short-term accommodation for guests.

commercial vehicle means a vehicle, whether licenced or not, that has a gross vehicle mass of greater than 4.5 tonnes including –

- (a) a utility, van, truck, tractor, bus or earthmoving equipment; and
- (b) a vehicle that is, or is designed to be an attachment to a vehicle referred to in paragraph (a).

floor area has the meaning given in the Building Code.

minerals has the meaning given in the *Mining Act 1978* section 8(1).

plot ratio means the ratio of the floor area of a building to an area of land within the boundaries of the lot or lots on which the building is located.

precinct means a definable area where particular planning policies, guidelines or standards apply.

predominant use means the primary use of premises to which all other uses carried out on the premises are incidental.

retail means the sale or hire of goods or services to the public.

short-term accommodation means temporary accommodation provided either continuously or from time to time with no guest accommodated for periods totalling more than 3 months in any 12 month period.

wholesale means the sale of goods or materials to be sold by others.

1. Parking

- (a) The Table in Schedule 9 sets out the requirements relating to the minimum number of car, motorcycle / scooter and bicycle parking spaces required as part of any development.
- (b) Parking spaces, vehicle manoeuvring areas, access ways and crossovers shall be designed and constructed in accordance with the relevant Australian Standards and shall be maintained to the satisfaction of the local government.
- (c) The parking requirement for a land use which is not specified in the Table in Schedule 9 is to be determined by the local government having due regard to the –
 - (i) nature of the proposed development;
 - (ii) number of employees or others likely to be employed or engaged in the use of the land;
 - (iii) anticipated demand for visitor parking;
 - (iv) availability of on-street parking;
 - (v) method of transport that will be used to gain access to the development; and
 - (vi) availability of public transport.
- (d) All parking requirements shall be calculated by rounding up to the nearest whole number, with the exception of motorcycle / scooter and bicycle parking spaces.
- (e) Where a development is adjacent to on-street parking, the local government may approve a maximum reduction in the number of parking spaces equivalent to the number of on-street parking spaces directly adjacent to the development having due regard to those matters under subclause (c)(i) to (vi).
- (f) The local government may approve car parking spaces within the road reserve adjacent to the development, and in considering an application for development approval the local government shall have due regard to the following –
 - (i) the width and function of the road;
 - (ii) the ability of the road to accommodate the parking; and
 - (iii) the ability of the development to accommodate on-site parking.
- (g) Where car parking areas accommodate 20 vehicles or more, provision shall be made for pedestrian movement systems through the parking areas to connect with other

pedestrian movement routes in the locality.

- (h) The local government may allow a 10% reduction in the amount of car parking spaces required (up to a maximum of 5 bays) where it can be justified via a travel plan. The travel plan must be prepared to the satisfaction of the local government.
- (i) Where a development results in the likely demand for parking of trailers, caravans, buses and / or coaches, the local government may impose conditions requiring additional parking spaces for such vehicles to be integrated with the development.

2. Shared parking

- (a) The local government may approve a proportion of the total number of the parking bays required to be shared jointly with another land use, and may only approve an application for development approval under this clause if the local government is satisfied that –
 - (i) the car parking arrangement will be adequate to service the proposed development;
 - (ii) the car parking in the locality accommodates any deficit in the required car parking bays; and
 - (iii) the peak demands for car parking from the land uses sharing the car parking are different and do not substantially overlap.
- (b) Where the local government permits the shared use of parking, it shall require the landowners involved to prepare at their own cost, a legally binding agreement registered on the certificate of title of the land advising landowners of the reciprocal parking and the access and maintenance arrangements.

3. Cash-in-lieu of parking

- (a) The local government may agree to a cash payment in lieu of all, or part, of the car parking bays as required in Schedule 9.
- (b) A cash payment in lieu of providing car parking bays shall only be considered if the local government is satisfied that –
 - (i) there is sufficient car parking in the locality; and
 - (ii) a public car park exists or is planned in the immediate locality that adequately services the car parking requirements of both the general public and the proposed development.
- (c) The cash-in-lieu payment shall not be less than the estimated cost of the following –
 - (i) constructing the car parking bays and associated manoeuvring areas (including sealing, kerbing and draining); and
 - (ii) the value of the land on which the car parking bays and associated manoeuvring areas are to be located with the value to be determined by an appropriately qualified land valuer to the satisfaction of the local government.
- (4) Cash-in-lieu payments shall be paid into a parking fund for improvements in the locality from which the cash-in-lieu payment was received, towards car parking, public transport,

pedestrian access, cycling facilities and infrastructure by the local government, especially where these will reduce the demand for parking.

4. Loading / unloading areas

Where a development involves the delivery or dispatch of goods of any kind, a loading and unloading area will be required to be provided and the following requirements shall apply –

- (a) delivery vehicles using the area must be able to enter the road in a forward direction.
- (b) areas are to be located either inside buildings or to the side and / or rear of the premises and separate from any public access areas.
- (c) delivery vehicles shall not obstruct the public access areas.

5. Service courts

Where a service court(s) is required to be provided for the storage and concealment of refuse disposal bins, crates and other materials of trade, the following requirements shall apply –

- (a) accessible from any loading / unloading area required by subclause 4;
- (b) of an area and dimension to the satisfaction of the local government but, in any event shall not be less than 10 m²; and
- (c) screened from public view to the satisfaction of the local government.

6. Landscaping

In considering the landscaping requirement of any application for development approval the following requirements shall apply –

- (a) landscaping should be designed and located to improve the visual amenity of the development and should be generally located to the front of the development to enhance the streetscape.
- (b) landscaping should consist of native or locally acceptable species to the satisfaction of the local government.
- (c) where new on-site car parking areas are developed they are to be landscaped with shade trees at a rate of no less than 1 tree per 4 car parking bays to the satisfaction of the local government.
- (d) small strips of landscaping less than 1.5 m in width are discouraged and may not be supported.

7. Building height

For the purposes of this clause, the building height limit does not apply to a chimney, mast, telecommunications infrastructure, satellite dish (not exceeding a diameter of 4 m), pole, wind turbine or signal receiving or transmitting tower. Notwithstanding, the development is to be designed, sited and/or treated to ensure that it does not adversely impact the visual amenity of the locality, as determined by the local government.

8. Repurposed / second-hand dwellings

The local government may impose conditions to ensure the external appearance and materials used in the construction of the dwelling is of an acceptable standard.

9. Commercial vehicle parking

In considering an application for development approval under this clause where commercial vehicle parking is proposed in the Residential zone the following requirements shall apply –

- (a) a dwelling must be located on the lot;
- (b) only 1 commercial vehicle is to be parked on the lot unless a second commercial vehicle is parked wholly within an approved outbuilding;
- (c) the commercial vehicle is to be parked behind the front building line of the dwelling and effectively screened from view from the street;
- (d) no part of the commercial vehicle is to be parked on any portion of a right-of-way or public road contiguous with the lot; and
- (e) no servicing (major or minor) of the commercial vehicle shall be undertaken on the lot.

10. Development of lots abutting unconstructed roads or with no gazetted road access

- (a) Notwithstanding any other provisions of this Scheme, development approval is required for all development abutting an unconstructed road reserve or on a lot which does not have direct frontage to a gazetted road reserve.
- (b) In considering an application for development approval under this clause the local government may –
 - (i) refuse to grant development approval until the road has been constructed or direct access to a constructed road is provided; or
 - (ii) grant development approval subject to a condition requiring the applicant to contribute to the full or partial cost of constructing the road as determined by the local government; or
- (c) Where gazetted road access is not available, the local government may require other such arrangements to be made for permanent access which addresses the following –
 - (i) permanent access being legally secured;
 - (ii) the location of the access;
 - (iii) access being constructed and maintained; and
 - (iv) a notification being registered on the certificate of title of the land advising landowners that the lot does not have access to a constructed public road and alternative access arrangements must be maintained, both physically and legally.

11. Workforce accommodation

An application for development approval under this clause shall be accompanied by information that addresses the following –

- (a) the demonstrated need for the proposed workforce accommodation;
- (b) the suitability of the site to be developed for the proposed use;
- (c) the compatibility of the development with its setting including the desired future character of the locality and the need to avoid landscape impacts and land use conflicts;
- (d) appropriate access and egress to the site by vehicles and pedestrians, including providing shared access where applicable;
- (e) appropriate facility design and use including provision and/or access to recreation,

- entertainment and community services; and
- (f) a workforce management plan outlining how the workforce will be managed on the site.

12. Tree farms

- (a) An application for development approval under this clause shall be accompanied by –
 - (i) a plantation management plan and fire management plan in accordance with the *Code of Practice for Timber Plantations in Western Australia*; and
 - (ii) a bushfire management plan where required under State Planning Policy 3.7 – Planning in Bushfire Prone Areas.
- (b) In considering an application for development approval under this clause the local government is to have due regard to the following –
 - (i) the *Code of Practice for Timber Plantations in Western Australia*;
 - (ii) the *Guidelines for Plantation Fire Protection*;
 - (iii) the need to protect existing water courses and foreshore buffer areas, vegetation corridors, agricultural production, and the mitigation of wind erosion, waterlogging and salinity;
 - (iv) land use compatibility and the location of the tree farm in relation to land zoned and / or planned for residential, industrial and commercial uses; and
 - (v) the suitability of the current and future road network, particularly in regard to any future intended logging operations.

13. Dams and watercourses

- (a) An application for development approval under this clause for private water supply dams which seek to –
 - (i) reduce or are likely to reduce the natural flow of any creek or watercourse; or
 - (ii) direct any stormwater, other water or liquid from any source to any creek, watercourse or wetland,

will only be approved where the local government is satisfied that there will be no adverse impacts on the creek, watercourse or wetland and / or environment of the area within which the development is proposed.

- (b) No development shall impede in any way the natural water flow along any creek line or water/ drainage course.
- (c) In considering an application for development approval the local government may refer the application to the Department of Water and Environmental Regulation and shall have due regard to any comments received.

14. Building envelopes / building exclusion areas

- (a) All dwellings, outbuildings, on-site effluent disposal systems and other incidental development in the Rural Residential and Rural Smallholdings zones must be located within an approved building envelope or outside of an approved building exclusion area except for –

- (i) the provision of a suitable access way to the development;
 - (ii) the provision of suitable boundary fencing as approved by the local government; and
 - (iii) development specifically required to implement an approved bushfire management plan or any other bushfire management requirements.
- (b) Where a building envelope or building exclusion area has not been approved a local development plan may be required to be submitted with an application for development approval and the following requirements shall apply –
 - (i) a building envelope shall not exceed 2,000 m² and the area outside of a building exclusion area must contain at least one area of 2,000 m²;
 - (ii) a building envelope can be in no more than 2 separate areas which in total do not exceed 2,000 m²;
 - (iii) complies with the minimum setbacks of the Scheme;
 - (iv) the removal of remnant vegetation is to be minimised; and
 - (v) complies with approved bushfire management plan or any other bushfire management requirements.
- (c) The local government may approve an application for development approval to relocate or vary a building envelope or building exclusion after advertising the application in accordance with clause 64 of the deemed provisions.
- (d) The local government may only approve an application for development approval under subclause (c) if the local government is satisfied that –
 - (i) the visual amenity and rural character of the locality will not be affected to any greater extent; and
 - (ii) development within the proposed new building envelope will not render the protection of the property from the risk of bushfire any more difficult to achieve.

15. Renewable energy facilities

An application for development approval under this clause shall be accompanied by information that addresses the following –

- (a) community consultation;
- (b) environmental impacts;
- (c) visual and landscape impacts;
- (d) noise impacts;
- (e) public and aviation safety;
- (f) heritage;
- (g) construction impacts; and
- (h) impacts to agriculture on the lot and the surrounding area.

16. Potable water supply

- (a) Where a reticulated water supply network is available, all development requiring potable water is to connect to that supply.
- (b) Where a reticulated water supply network is not available –

- (i) each dwelling shall be provided with a minimum 135,000 litre water storage tank that is separate from and additional to any water storage tank(s) for firefighting purposes in an approved bushfire management plan; and
 - (ii) for all other uses, where applicable, a sufficient quantity of potable water shall be provided to the satisfaction of the local government.
- (c) All water storage tanks are to be fitted with couplings for the purposes of firefighting, to the specifications of the Department of Fire and Emergency Services.

17. Boundary Fencing

- (a) For land in the Priority Agriculture, Rural, Rural Residential or Rural Smallholdings zone, fencing shall be visually permeable with an open-style, post and rail / wire design.
- (b) Internal solid fencing for privacy purposes for land in subclause (a) may be permitted where it is compatible with its setting and the character of the locality.

18. Caretaker's dwelling

- (a) In considering an application for development approval under this clause the following requirements shall apply –
 - (i) only 1 caretaker's dwelling is permitted per lot, excluding lots within a strata scheme;
 - (ii) the plot ratio area is limited to a maximum of 100 m²; and
 - (iii) must be located so as to minimise any amenity impacts in terms of noise, dust, odour and light spill from the predominant use of the land.
- (b) The local government will not recommend approval of a subdivision application that will result in a caretaker's dwelling being located solely on its own lot, separate from the predominant use of the land.

19. Stocking rates

- (a) On Rural Residential zoned lots, the keeping of horses must meet all of the following requirements:
 - (i) the lot is a minimum 1 Ha in size;
 - (ii) a maximum of 1 horse per hectare;
 - (iii) no more than 3 horses per lot; and
 - (iv) keeping of horse/s is for personal use of the occupant/s only.
- (b) Unless subclause (a) applies, all other stocking rates must comply with Department of Primary Industries and Regional Development stocking rate guidelines.
- (c) For land in the Rural Residential or Rural Smallholding zones, where in the opinion of the local government the continued presence of animals on any portion of land is likely to contribute, or is contributing to unsatisfactory environmental impacts, the local government may require the removal of the animals for a specified period and the undertaking of remedial works.

20. Nature Based Park

An application for development approval under this clause shall be accompanied by information that addresses the following –

- (a) the scale of the proposal, including but not limited to, the number of camps, maximum number of campers, access arrangements and any proposed structures;
- (b) any environmental values and measures for protection and rehabilitation;
- (c) waste disposal in accordance with the *Government Sewerage Policy*; and
- (d) the compatibility of the development with its setting and the need to avoid land use conflicts.

21. Development in the Tourism zone

- (a) The local government may approve a combination of short-term tourism accommodation and permanent residential accommodation on the same site, and may only approve an application for development approval under this clause if the local government is satisfied that –
 - (i) the predominant use of the site remains for short-term tourism / holiday accommodation and other tourism uses;
 - (ii) the permanent residential accommodation does not exceed 25% of the total number of accommodation units;
 - (iii) the scale and design of the development complements the surrounding landscape and character of the area, with the tourism component given priority in those areas of highest tourism amenity;
 - (iv) adequate separation distances and/or buffers are in place from incompatible land uses; and
 - (v) the residential component is integrated with both the tourism uses and management structure of the development.
- (b) Where strata titling is proposed, appropriate management arrangements should be in place (e.g. via a management statement) that restricts the maximum length of stay to 3 months in any 12 month period applied to the tourism accommodation component.

22. Separation to Sensitive Land Uses

The Shire shall have due regard to the '*Guidance for the Assessment of Environmental Factors – Separation Distances between Industrial and Sensitive Land Uses (EPA 2005)*' when assessing any planning proposal resulting in future development of industrial or sensitive land uses in proximity to one another.

Method for calculating contributions	<p>(a) The development contribution plan identifies the needs of the community infrastructure to be upgraded to cater for the future additional population as a result of the Dardanup Townsite Expansion Strategy. This calculation excludes –</p> <p>(i) The demand for the infrastructure generated by the existing population;</p> <p>(ii) Any upgrading works required to the infrastructure as maintenance; and</p> <p>(iii) Ongoing maintenance of the infrastructure.</p> <p>(b) Infrastructure items (as referenced above) 1,2, 3 and 5 are apportioned one-third local government, one-third developer and one-third external funding such as grants.</p> <p>(c) The infrastructure item (as referenced above) at 4 will not qualify for external funding and therefore the costs are apportioned equally between the local government and the developer.</p> <p>(d) The developer is also liable to pay 100% of the administration costs at subclause (1)(f).</p> <p>(e) The developer contribution will be calculated based on their proportion of the total net development contribution area as</p>

	<p>follows:</p> <p>cost contribution = developer apportioned cost x developer % of total net development contribution area</p>
Period of operation (lifespan)	2013 – 2023 (10 Years)
Priority and timing	<p>(a) Community centre and outdoor play area (2017/2018)</p> <p>(b) Dardanup oval hard courts (2017/2018)</p> <p>(c) Dardanup oval club rooms (2020/2021)</p> <p>(d) Dardanup oval car parking (2020/2021)</p> <p>(e) Public library (2020/2021)</p>
Review process	<p>(i) The plan will be reviewed <u>five (5) years from the date of gazettal of the local planning scheme, or earlier should the local government consider it appropriate</u> having regard to the rate of subsequent development in the area since the last review and the degree of development potential still existing.</p> <p>(ii) The estimated Infrastructure costs in this plan will be reviewed at least annually to reflect changes in funding and revenue sources and indexed based on the Building Cost Index (as provided by Rawlinsons Australian Contribution Handbook), direct quotation or as provided by a suitably qualified person.</p>
Participants and contributions	In accordance with the Cost Contribution Schedule adopted by the Local Government for DCA 1.
Reporting requirements	<ul style="list-style-type: none"> • Annual review of DCP • A status report (annual report) in a manner and form approved by the Western Australian Planning Commission.
