The Employment Standard

The Employment Standard applies when filling a vacancy (by way of recruitment, selection, appointment, secondment, transfer and temporary deployment (acting)) in the Western Australian Public Sector.

The Employment Standard requires four principles to be complied with when filling a vacancy:

Merit principle

The Western Australia public sector makes employment decisions based on merit. Merit usually involves the establishment of a competitive field.

In applying the merit principle a proper assessment must take into account:

- a. the extent to which the person has the skills, knowledge and abilities relevant to the work related requirements and outcomes sought by the public sector body; and
- b. if relevant, the way in which the person carried out any previous employment or occupational duties.

Equity principle

Employment decisions are to be impartial and free from bias, nepotism and patronage.

For secondment the employee consents.

For transfer employment conditions are comparable.

Interest principle (applies to secondments, transfers and acting)

Decisions about an employee's secondment, transfer or acting take account of the employee's interests and the work related requirements of the relevant public sector body.

Transparency principle

Decisions are to be transparent and capable of review.

Terminology
