

2025-2026 Community Litter Grant recommended. Ten grants with 58,116.00 funding.

Applicant	Project Title	Project Description	Grant Amount
Shire of Broome	Scoop the Poop	The Scoop the Poop Project aims to promote responsible pet ownership by encouraging dog owners to take their pets' waste home. To reduce dog litter on beaches and public spaces, we are promoting poo in-ground composter and installing more dog waste bag dispensers in key locations. The campaign will include social media outreach, newspaper ad, and community workshop on in-ground composter. Additionally, key rings holding three dog waste bags will be distributed at targeted events as a reminder for dog owners to always bring bags. The project's goal is to make our public spaces cleaner and more enjoyable for everyone.	\$4,154.00
ABC Foundation Limited	Don't Rubbish Country - Kids Leading Litter Change	This project empowers children in Carnarvon and Meekatharra to tackle local litter by collecting street rubbish while building pride in country and learning about environmental responsibility. Education and building pride in Country are at the heart of this initiative,	\$8,800.00
City of Busselton	The Dunsborough Litter Project	Our project aims to raise awareness about roadside litter en route to the Dunsborough Waste Facility. Two community roadside litter clean-ups, spaced six months apart, will provide valuable data to support litter reduction. The findings will be shared with the community through video footage and a 3D art sculpture made from the collected litter. Data results will shape the development of educational material to support litter	\$4,408.00

		reducing behaviours, such as effectively securing loads when transporting waste.	
Kwoorabup Nature School	Our Beautiful Kwoorabup Coastline	A student-led litter prevention and education initiative based in the Shire of Denmark, our project empowers primary-aged children to reduce, monitor, document and prevent the spread of beach litter and marine debris through termly beach clean-ups, classroom analysis, and creative reuse projects to promote responsible disposal.	\$5,500.00
South East Regional Centre for Urban Landcare (Inc)	Clean Sites - Clean Waterways	This project will increase understanding of the nature and extent of littering on building sites in the South East Corridor of the Canning River Catchment. Keep Australia Beautiful's Australian Litter Measure survey will be adapted for use on building sites and two bi-annual surveys undertaken in the Cities of Armadale, Gosnells and Canning and Town of Victoria Park. The first will inform an education campaign promoting best practice litter disposal behaviours and raising awareness of environmental impacts, when those working on building sites don't put their litter in a bin even though they know it's the right thing to do.	\$9,718.00
Latitude Jewellers	Flotsam and Jetsam art exhibition by Latitude Jewellers	Since 2011, Flotsam and Jetsam has been dedicated to cleaning up ocean debris from the Abrolhos Islands. Volunteers collect plastics, ropes, and discarded fishing gear. The collected litter is then transformed by local artists into creative artworks, showcased in a public exhibition that raises awareness about marine pollution and inspires environmental stewardship. This exhibition not only restores fragile coastal habitats but also fosters	\$8,000.00

		community engagement and creative expression, making a tangible impact on both the environment and local culture.	
Wickepin Community Resource Centre In	Wise Up for Wildlife: Wickepin Against Litter	Our project will raise awareness about the impact of litter on local fauna and promote responsible waste behaviour in our community. We will bring a wildlife and bird education display to the Wickepin Festival, offering an engaging and memorable experience that highlights the importance of protecting local wildlife from litter. A children's poster competition will encourage research into litter and wildlife, with posters displayed at the festival. Social media posts will share local data, raise awareness, and promote responsible behaviour, making a lasting impact on attendees to inspire positive change.	\$3,300.00
Shire of Northam	Hands-on Heroes: Volunteers Working Towards a Litter Free Northam!	The Shire of Northam, in partnership with local community groups and organisations, are showcasing the inspiring efforts of groups dedicated to combating litter in Northam through a short video "spotlighting" these initiatives. By highlighting the positive impact of community action, the project seeks to foster a collective commitment to environmental responsibility and encourage widespread involvement in local litter prevention efforts.	\$4,642.00
Adventure Kids Entertainment	Teddy the Turtle's Litter Awareness Adventure	Adventure Kids Entertainment will deliver litter-prevention educational shows to young children aged 3-7 across libraries and childcare centres, in partnership with City of Bayswater. Teddy the Turtle's Litter Awareness Adventure explores how litter travels from our parks to our rivers and oceans through story, song and interactive activities, concluding with a litter scavenger hunt. The show explores how our reliance on single use	\$5,594.00

		plastics contributes to the littering problem, encouraging children to become becoming agents of change to protect our environment. Bordering the Swan River, City of Bayswater is committed to reducing casual littering to protect our natural ecosystem.	
City of Kalgoorlie-Boulder	Caring for Country in Kalgoorlie-Boulder	It a community-driven initiative to tackle the persistent littering problem in the bushland and parks surrounding the Kalgoorlie-Boulder township. The project focuses on engaging and empowering local community members to take active roles in protecting and caring for the land, while raising public awareness and encouraging local retailers to support a cleaner, more respectful environment. The project is committed to fostering inclusive leadership in environmental care, with a focus on working alongside Indigenous community members, and people experiencing homelessness, through culturally informed and experience-driven approaches that enable meaningful participation and connection to Country.	\$4,000.00
