Cybersecurity for everyone!

Red Piranha's crown jewel Crystal Eye, Consolidated Security Platform is designed from the ground up for enterprises of all sizes. Crystal Eye is an award-winning technology that is recognised as a significant game-changer in the industry. Crystal Eye protects, detects and responds to threats across your whole organisation, all from a single unified platform. It secures your organisation from the cloud to the endpoint with a range of integrated security controls.

Embedded within the Crystal Eye Platform is Red Piranha's **Security Incident and Event Management (SIEM) solution**.

Our advanced solutions are

Affordable,
Full-featured, and
Easy to set up, use and maintain.
