OUR PRIORITIES FOR GOVERNMENT

OUR VISION

Our vision is for Western Australia to remain the strongest economy in the nation.

The best place in the world to get a quality job.

By remaining a global leader in the resources industry.

Diversifying our economy for the future.

And making more things here.

For every Western Australian to have a home.

And to be able to access the healthcare we need, when we need it.

And that no matter where we live - in our suburbs, towns, regional centres and remote communities - for all Western Australians to have access to the infrastructure and services we need.

Collaborating across government and with both the private and community sectors, to support the development and delivery of effective policy.
