

# Most Common Passwords

## Across

- 3 Catch 'em all? Hack 'em all.
- 4 Car or cowboy, not a good password.
- 5 If you tell everyone, it's not this anymore.
- 9 Social media giant, weak as a key.
- 13 Three words that should never be your password (1,4,3).
- 15 Most valuable gem, but far too common for a password.
- 18 Tile for a person in control, but anyone can guess it.
- 19 Common affectionate nickname, bad as a password (4,3).
- 20 Dark knight, weak choice.
- 22 The machine you're trying to protect.
- 24 Common greeting for arrival, bad login.
- 25 Stealthy fighter, not stealthy password.
- 26 Block-building computer game, broken security.
- 27 World's most popular sport, sadly also a password.
- 28 Grated or sliced, it's still weak protection.
- 32 Typically salty, but still a nutty choice for a password.
- 33 Dark, milk or white, it's a bitter choice for a password.
- 34 Second row of your keyboard.
- 35 Using this hero as a password is kryptonite.
- 36 #2 female baby name of the 90s, bad password forever.
- 37 You may be walking on \_\_\_\_\_, it's still a dark password choice.
- 38 Trialing this password means it shouldn't be permanent.
- 40 Apathy in a word, and in security.

## Down

- 1 Basic greeting, basic security.
- 2 It follows you everywhere, like cyber risks if you use this as a password.
- 3 The most obvious choice in the world.
- 6 Even chocolate chips can't sweeten this crumbling password.
- 7 No hitting a homerun with this password.
- 8 Six of the first letter—cybercriminals love it.
- 10 Bald eagles symbolise this, cybercriminals want this with your account.
- 11 Loved ones, but not strong enough for a password.
- 12 Cheeky animal turned weak password.
- 14 Ironically one of the most known weak passwords.
- 16 This fire-breathing mythical creature can't protect your account.
- 17 Fairy-tale royalty turned weak key.
- 19 Delicate insect that will cause your data to flutter away.
- 21 First six letters on your keyboard.
- 23 A password that literally begs access.
- 29 Warmest season, overused as a password.
- 30 Popular Australian sport, even popular password.
- 31 A galaxy far, far too predictable.
- 33 Default placeholder—meant to be changed (6,2)
- 39 Default login on many work computers.
- 41 Default account name for visitors, also a terrible password.
