

---

Hi,

With respect to proposed change to bring forward the policy decision from the Reserve Capacity Mechanism Review to remove the concept of Non-Temperature Dependent Load (NTDL) by applying the same Ratio to the NTDLs and Temperature Dependent Loads, the Water Corporation does not support this change and believes that the current timeline for removal of NTDL should stay.

Regards,

**Peter Huxtable**

Manager Energy Management

In the spirit of reconciliation, Water Corporation acknowledges the Traditional Custodians of Country throughout WA and their enduring connections to land, sea and community. We pay our respects to Elders past and present, and extend that respect to all Aboriginal and Torres Strait Islander peoples today.
