SHIRE OF MUKINBUDIN
TOWN PLANNING SCHEME NO. 4

Preamble

AMD 1 GG 15/11/16

This Town Planning Scheme of the Shire of Mukinbudin consists of this Scheme Text, the deemed provisions (set out in the Planning and Development (Local Planning Schemes) Regulations 2015 Schedule 2 and the Scheme Maps. The Scheme Text should be read with the Local Planning Strategy for the Shire.

Part 2 of the deemed provisions set out the Local Planning Framework. At the core of this Framework is the Local Planning Strategy which sets out the long-term planning directions for the local government, applies State and regional planning policies and provides the rationale for the zones and other provisions of the Scheme. In addition to the Local Planning Strategy, the Framework provides for Local Planning Policies, which set out the general policies of the local government on matters within the Scheme.

The Scheme divides the local government district into zones to identify areas for particular uses and identifies land reserved for public purposes. Most importantly, the Scheme controls the types of uses and development allowed in different zones. There are particular controls included for heritage and special control areas. The Scheme Text also sets out the requirements for development approval, enforcement of the Scheme provisions and non-conforming uses.

PART 3 - ZONES AND THE USE OF LAND

3.1 ZONES

3.1.1 The Scheme Area is classified into the zones shown on the Scheme Map.

3.1.2 The zones are delineated and depicted on the Scheme Map according to the legend thereon.

3.2 OBJECTIVES OF THE ZONES

The Objectives of the Zones are:

▪ Residential Zone

- to provide for the predominant form of residential development to be single houses whilst providing for lifestyle choice with dual residential densities, for grouped dwellings.
- to achieve a high standard of residential development.
- to allow for the establishment of non-residential uses which are compatible with the predominant residential use and which will not adversely affect local amenities.

▪ Townsite Zone

- to allow for a wide range of uses such as may be part of a small rural town.
- to provide for lifestyle choice.
- to protect and maintain local amenities.

▪ Town Centre Zone

- to ensure the established town centre in Mukinbudin remain the principal place for retail, commercial, civic, and administrative functions in the district.
- to ensure development will not adversely affect local amenities, and will enhance the character of the townsite.
- to provide for the efficient and safe movement of pedestrians and vehicles (including trucks, buses, and caravans).
- to provide sufficient parking spaces for cars, caravans, and buses, without compromising pedestrian movements.
- to provide an increased level of public amenities including public toilets, shaded areas, and street furniture.
- to provide for expansion of commercial activity and community facilities to meet future demands.

▪ Industrial Zone

- to provide for the needs of industry to support the community.
- to provide appropriate buffers to industrial areas.
- to avoid non-industry related uses establishing in the industrial areas, which may constrain industrial activities.

- **Rural Residential Zone**
 - to select areas wherein closer subdivision will be permitted to provide for such uses as hobby farms, horse breeding, rural-residential retreats.
 - to make provision for retention of the rural landscape and amenity in a manner consistent with the orderly and proper planning of such areas.
 - having regard for the size of the district, the fragile nature of the environment in many places, and the difficulties faced by the local government in providing services away from the Mukinbudin townsite, the local government will generally favour Rural-Residential zones be located close to the townsite and then only where the environmental impacts are manageable.

- **Rural Zone**
 - to ensure the continuation of broad-hectare agriculture in the district encouraging where appropriate the retention and expansion of agricultural activities.
 - to provide for intensive agricultural use in suitable areas.
 - to consider non-rural uses where they can be shown to be of benefit to the district and not detrimental to the natural resources or the environment.
 - to allow for facilities for tourists and travellers, and for recreation uses.
 - to have regard to use of adjoining land at the interface of the Rural zone with other zones to avoid adverse effects on local amenities.

3.3 ZONING TABLE

AMD 1 GG 15/11/16

- 3.3.1 The Zoning Table indicates, subject to the provisions of the Scheme, the uses permitted in the Scheme Area in the various zones. The permissibility of any uses is determined by cross-reference between the list of uses on the left hand side of the Zoning Table and the list of zones at the top of the Zoning Table.
- 3.3.2 The symbols used in the cross reference in the Zoning Table have the following meanings:
- | | |
|-----|--|
| "P" | means that the use is permitted by the Scheme providing the use complies with the relevant development standards and the requirements of the Scheme. |
| "D" | means that the use is not permitted unless the local government has exercised its discretion by granting development approval. |
| "A" | means that the use is not permitted unless the local government has exercised its discretion by granting development approval after giving special notice in accordance with clause 64 of the deemed provisions. |
| "X" | means a use that is not permitted by the Scheme. |
- 3.3.3 A change in the use of land from one use to another is permitted if:
- (a) the local government has exercised its discretion by granting development approval;
 - (b) the change is to a use which is designated with the symbol 'P' in the cross-reference to that zone in the Zoning Table and the proposed use complies with all the relevant development standards and requirements of the Scheme;
 - (c) the change is an extension of a use within the boundary of a lot which does not

change the predominant use of the lot; or

- (d) the change is to an incidental use that does not change the predominant use of the land.

- Note:
1. The development approval of the local government is required for the development of land in addition to any approval granted for the use of land. In normal circumstances one application is made for both the use and development of land.
 2. The local government will not refuse a 'P' use because of the unsuitability of the use for the zone but may impose conditions on the use of the land to comply with any relevant development standards or requirements of the Scheme, and may refuse or impose conditions on any development of the land.
 3. In considering a 'D' or 'A' use, the local government will have regard to the matters set out in clause 67 of the deemed provisions.
 4. The local government must refuse to approve any 'X' use of land. Approval to an 'X' use of land may only proceed by way of an amendment to the Scheme.

3.4 INTERPRETATION OF THE ZONING TABLE

AMD 1 GG 15/11/16

- 3.4.1 Where a specific use is mentioned in the Zoning Table, it is deemed to be excluded from the general terms used to describe any other use.
- 3.4.2 If a person proposes to carry out on land any use that is not specifically mentioned in the Zoning Table and cannot reasonably be determined as falling within the type, class or genus of activity of any other use the local government may:
- (a) determine that the use is consistent with the objectives of the particular zone and is therefore permitted;
 - (b) determine that the proposed use may be consistent with the objectives of the particular zone and thereafter follow the advertising procedures of clause 64 of the deemed provisions in considering an application for development approval; or
 - (c) determine that the use is not consistent with the objectives of the particular zone and is therefore not permitted.

3.5 ADDITIONAL USES

Despite anything contained in the Zoning Table, the land specified in Schedule 2 may be used for the specific use or uses that are listed in addition to any uses permissible in the zone in which the land is situated subject to the conditions set out in Schedule 2 with respect to that land.

Note: An additional use is a land use that is permitted on a specific portion of land in addition to the uses already permissible in that zone that applies to the land.

There are no Additional Uses which apply to the Scheme.

3.6 RESTRICTED USES

Despite anything contained in the Zoning Table, the land specified in Schedule 3 may only be used for the specific use or uses that are listed and subject to the conditions set out in Schedule 3 with respect to that land.

Note: A restricted use is the only use or uses permitted on a specific portion of land and other uses that would otherwise be permissible in the zone are not permitted.

There are no Restricted Uses which apply to the Scheme.

3.7 SPECIAL USE ZONES

- 3.7.1 Special Use Zones are set out in Schedule 4 and are in addition to the zones in the

Zoning Table.

- 3.7.2 A person must not use any land, or any structure or buildings on land, in a Special Use Zone except for the purpose set out against that land in Schedule 4 and subject to compliance with any conditions set out in Schedule 4 with respect to that land.

Note: Special use zones apply to special categories of land use which do not comfortably sit within any other zone in the Scheme.

3.8 NON-CONFORMING USES

AMD 1 GG 15/11/16

Except as otherwise provided in the Scheme, no provision of the Scheme is to be taken to prevent:

- (a) the continued use of any land or building for the purpose for which it was being lawfully used immediately prior to the Gazettal date;
- (b) the carrying out of any development on that land for which, immediately prior to the Gazettal date an approval or approvals, lawfully required to authorise the development to be carried out, were duly obtained and are current; or
- (c) subject to clause 80 of the deemed provisions, the continued display of advertisements which were lawfully erected, placed or displayed prior to the Gazettal date.

Note: "Land" has the same meaning as in the *Planning and Development Act 2005* and includes houses, buildings and other works and structures.

3.9 EXTENSIONS AND CHANGES TO A NON-CONFORMING USE

AMD 1 GG 15/11/16

3.9.1 A person must not:

- (a) alter or extend a non-conforming use;
- (b) erect, alter or extend a building used in conjunction with or in furtherance of a non-conforming use; or
- (c) change the use of land from a non-conforming use to another non-conforming use,

without first having applied for and obtained development approval under the Scheme.

3.9.2 An application for development approval under this clause is to be advertised in accordance with clause 64 of the deemed provisions.

3.9.3 Where an application is for a change of use from an existing non-conforming use to another non-conforming use, the local government is not to grant its development approval unless the proposed use is less detrimental to the amenity of the locality than the existing non-conforming use and is, in the opinion of the local government, closer to the intended purpose of the zone.

3.10 DISCONTINUANCE OF NON-CONFORMING USE

Where a non-conforming use of any land or buildings has been discontinued for a period of six months such land or building must not be used after that period otherwise than in conformity with the provisions of the Scheme.

3.11 TERMINATION OF A NON-CONFORMING USE

AMD 1 GG 15/11/16

The local government may effect the discontinuance of a non-conforming use by the purchase of the land, or by the payment of compensation to the owner or the occupier or to both the owner

and the occupier of that land, and may enter into an agreement with the owner for that purpose.

Note: Sections 190 and 191 of the *Planning and Development Act 2005* enables the local government to purchase, or, with the consent of the Governor, compulsorily acquire land for the purpose of a town planning scheme, subject to Part 9 of the *Land Administration Act 1997*, that section and the Scheme.

3.12 DESTRUCTION OF NON-CONFORMING USE BUILDINGS

AMD 1 GG 15/11/16

When a building used for a non-conforming use is destroyed to 75% or more of its value the building is not to be repaired, rebuilt, altered or added to for the purpose of being used for a non-conforming use or in a manner not permitted by the Scheme, except with the development approval of the local government.

PART 4 - GENERAL DEVELOPMENT REQUIREMENTS

4.1 COMPLIANCE WITH DEVELOPMENT STANDARDS AND REQUIREMENTS

Any development of land is to comply with the provisions of the Scheme.

4.2 RESIDENTIAL DESIGN CODES

AMD 1 GG 15/11/16

- 4.2.1 A copy of the Residential Design Codes is to be kept and made available for public inspection at the offices of the local government.
- 4.2.2 Unless otherwise provided for in the Scheme, the development of land for any of the residential purposes dealt with by the Residential Design Codes is to conform with the provisions of those Codes.
- 4.2.3 The Residential Design Code density applicable to land within the Scheme Area is to be determined by reference to the Residential Design Code density number superimposed on the particular areas contained within the borders shown on the Scheme Map or where such an area abuts another area having an Residential Design Code density, as being contained within the area defined by the centre line of those borders.

4.3 SPECIAL APPLICATION OF RESIDENTIAL DESIGN CODES

AMD 1 GG 15/11/16

For land with a dual density code of R12.5/30 the local government may permit a variation to the R12.5 density up to a maximum of R30 subject to:

- (a) any increase in density above R12.5 being conditional upon the development being connected to reticulated sewerage;
- (b) development at a density higher than R12.5 being located close to services and facilities to the satisfaction of the local government; and
- (c) any proposal involving an increase in density above R12.5 being advertised in accordance with clause 64 of the deemed provisions and the local government being satisfied the proposal, if implemented, will not have an adverse impact on local amenities.

4.4 RESTRICTIVE COVENANTS

AMD 1 GG 15/11/16

- 4.4.1 Subject to clause 4.4.2, a restrictive covenant affecting any land in the Scheme Area by which, or the effect of which is that, the number of dwellings which may be constructed on the land is limited or restricted to less than that permitted by the Scheme, is hereby extinguished or varied to the extent that it is inconsistent with the provisions of the Residential Design Codes which apply under the Scheme.
- 4.4.2 Where clause 4.4.1 operates to extinguish or vary a restrictive covenant the local government is not to grant development approval to the development of the land which would but for the operation of clause 4.4.1 have been prohibited unless the application has been dealt with as an 'A' use and has complied with all of the advertising requirements of clause 64 of the deemed provisions.

5.5 VARIATIONS TO SITE AND DEVELOPMENT STANDARDS AND REQUIREMENTS

AMD 1 GG 15/11/16

- 4.5.1 Except for development in respect of which the Residential Design Codes apply, if a development is the subject of an application for development approval and does not comply with a standard or requirement prescribed under the Scheme, the local

government may, despite that non-compliance, approve the application unconditionally or subject to such conditions as the local government thinks fit.

- 4.5.2 In considering an application for development approval under this clause, where, in the opinion of the local government, the variation is likely to affect any owners or occupiers in the general locality or adjoining the site which is subject of consideration for the variation, the local government is to:
- (a) consult the affected parties by following one or more of the provisions for advertising uses under clause 64 of the deemed provisions; and
 - (b) have regard to any expressed views prior to making its determination to grant the variation.
- 4.5.3 The power conferred by this clause may only be exercised if the local government is satisfied that:
- (a) approval of the proposed development would be appropriate having regard to the matters set out in clause 67 of the deemed provisions; and
 - (b) the non-compliance will not have an adverse effect upon the occupiers or users of the development or the inhabitants of the locality or upon the likely future development of the locality.

4.6 ENVIRONMENTAL CONDITIONS

AMD 1 GG 15/11/16

- 4.6.1 Environmental conditions to which the Scheme is, or amendments to the Scheme are, subject are incorporated into the Scheme by Schedule 6 of the Scheme.
- 4.6.2 Where appropriate, the environmental conditions are indicated on the Scheme Map by the symbol 'EC' to indicate that environmental conditions apply to the land.
- 4.6.3 The local government is to:
- (a) maintain a register of all relevant Statements published under section 48F and 48G of the EP Act; and
 - (b) make the statements available for public inspection at the offices of the local government.

Note: Environmental conditions are those required to be incorporated into a Scheme or an amendment to a Scheme following assessment under the *Environmental Protection Act 1986*.

There are no environmental conditions imposed under the Environmental Protection Act 1986 that apply to the Scheme.

4.7 DEVELOPMENT OF LOTS ABUTTING UNCONSTRUCTED ROADS

AMD 1 GG 15/11/16

Development approval is required for development of land abutting an unconstructed road or a lot which does not have frontage to a constructed road. In considering such an application the local government is to either:

- (a) refuse the application until the road has been constructed or access by means of a constructed road is provided as the case may be;
