Inclusion of the Special Condition

The special condition requires the Contractor to implement a Mental Health and Suicide Prevention Awareness Training workshop, on the contract's construction site, at least once every 12 months during the term of the contract.

This procurement direction requires State agencies to include the special condition in procurements for Construction Work where:

- the total estimated contract value is \$5 million (inc. GST) or above; and
- the contract delivery point is in Western Australia, including regional areas.

The special condition does not need to be included in a procurement where the Assistant Under Treasurer – Procurement Policy and Strategy, Department of Treasury and Finance exempts the State agency from the requirement in a written record. An exemption from this procurement direction must be recorded in the State agency's exemption register.

The term Construction Work has the meaning given in section 4 of the *Construction Contracts (Former Provisions) Act 2004*.

The special condition does not replace any part of the *Work Health and Safety Act 2022* or the *Work Health and Safety (General) Regulations 2022*.

The Special Condition

The special condition for inclusion in relevant Request documentation can be found on WA.gov.au.
