

# WA's weekly fuel update

as of 3:30pm, 29 May 2026

## Summary of current situation:

### What we have achieved this week:

- **Last week 96 fuel outlets were inspected**, and three infringements were issued.
- This brings the total to 1,629 inspections and **85 infringements since the blitz began in early March**.
- **The level of fuel stockouts remains lowest in the nation** with an average of less than 1% of all outlets experiencing a stockout at any one time.
- Fuel supply into Western Australian and **distribution to key regions and industries remains uninterrupted**.
- Fuel companies are **confident that shipments will arrive as planned** for June and early July.
- A **direct donate option for the \$100 Fuel Support Payment** has been introduced for those who wish to gift their payment to charity.
- This can be **done via the ServiceWA app from 1 July**.

### What we are working to address:

- **Preparations continue** for any escalation under the National Fuel Security Plan.

## National Fuel Security Plan – Level 2

### Keeping Australia Moving

Fuel supply continues to operate effectively, but localised supply disruptions are occurring. Federal and State Governments are taking precautionary actions to shore up supply.

Using legislative provisions to ensure timely information from industry.

Considering regulatory reforms to improve freight efficiency.

Monitoring and reporting fuel station supply, including diesel.

Monitoring economic impacts on fuel-exposed industries.
