

Secure, Resilient, Mission-Critical Connectivity

We enable defence, government, and critical infrastructure with secure, resilient communications and digital frameworks - anywhere.

AST Networks

Our Capabilities

Integrated Systems
End-to-end satellite network and digital integration - one seamless capability.

Managed Services
24/7 monitoring, support and lifecycle management - always mission ready.

Secure Connectivity
Encrypted, multi-orbit SATCOM and terrestrial networks - built for resilience.

Operational Benefits

Mission Ready Comms
Continuous connectivity across all environments.

See More, Act Faster
Real-time visibility & rapid response.

One Operational View
Unified performance & system insight

Built for Resilience
Multi-orbit redundancy & intelligent tracking.
