

# BASTION CAPABILITY STATEMENT

## ABOUT BASTION

Bastion is all about Defence capability. Our in-house capability includes some of the best talent in Australia highly motivated to ultimately support our servicemen and women to fight and win at sea. We have carefully nurtured and evolved our organic capabilities through the establishment of our domains of expertise, ensuring national cross pollination of best practice as well as real and tangible reach back to subject matter experts for our clients.

Our current portfolio includes the complete spectrum of services required for acquisition and sustainment of Defence material with current engagements across Australia both in the public and private sectors.

## TRACK RECORD

Bastion has built a high level of goodwill in the Defence ecosystem through timely and dependable delivery of outcomes as well as approaching any engagement with a relationship based 'Defence First' mindset. We will always put Defence first above other considerations and strongly believe in long term relationships built on trust.

## DEFENCE READY

Every Bastion employee has experience with the Defence regulatory environment and systems as applied through acquisition and sustainment programs as well as holding current security clearances. Bastion is DISP accredited with our in-house quality management system certified to ISO 9001, ISO 45001 and ISO 27001.

## 2025 DTC AWARD FINALIST

We're honoured that Bastion Defence has been named a finalist for the DTC SME Transformation and Change Award at the company level. This nomination recognises the meaningful change and impact Bastion has provided as a sovereign business within the Defence sector.
