

## Discriminators

- Proudly 100% Australian owned and operated
- Sovereign Capability & Supply Chain
- Industry leading bespoke specialist engineering
- Rapid concept development and prototyping
- Six decades inhouse oilfield technical limit expertise
- Unique & innovative patented product line
- Pioneering advanced additive manufacturing
- Holistic full carbon lifecycle optimisation

## Capabilities & Awards

- Advisory and engineering services
- Technical limit' concept design, prototyping/ production
- Efficient, on time and on budget engineering solutions
- 3D concept modelling and additive manufacturing
- Remote operations optimisation

## Innovative Engineering Systems Design

ONETIDE is a 100% Australian owned and operated Specialist Engineering Solutions SME.

Specializing in design and manufacture of technical-limit, novel engineering solutions for safety and efficiency challenges in maritime and infrastructure domains.

### 3 Business Pillars;

1. Maritime Optimization Solutions
2. Alternate Energy Systems
3. Complex material AM

Our cross platform systems capability deliver measurable outcomes for; Defence, Resources, Marine Logistics, Disaster Relief, and Alternate Energy sectors.

We take pride in demonstrating the benefits of our innovative designs in SAFETY – TIME – COST – ROI

Rebekah Manley  
Director of Operations

U1/9 Kalmia Road, Bibra Lake

### Quality Standards and Certifications

- DISP
- ISO 90001:2015
- ISO 14001:2015
- ISO 45001:2018
- DNV2.22

## Key Customers & Partners

## Key Products

**MISSION DECK™**  
No weld sea fastening system for rapid logistics on vessels of opportunity in "one tide".

**RAPID REEL™**  
Deployment, retrieval and storage system expediting shore power & flat fuel hose handling.

**MOBILE MICROGRID™**  
Scalable, mobile, grid quality, hybrid renewable power supply.

**UCS - MHU™**  
Modular Conex unit & Mission Deck™ interface.
