

DEFENCE PRODUCTS AND SERVICES

TUBE | PIPE | FITTINGS | FLANGES | ACTUATION | VALVES | ENGINEERED SOLUTIONS

COMPANY OVERVIEW

Prochem delivers world class Stainless Steel/Alloy Steel/CuNi Piping/Valving/Instrumentation Products to suit all your Mechanical piping/tube applications. Covering NB Piping, Mechanical Instrumentation and Valving. Prochem services the Defence industry via our 5 stocking locations in Australia. Our full comprehensive range is available on www.prochem.com.au Prochem brings many product solutions to the Defence Industry.

Prochem/Range of Products & Services provides the following advantages:

- Safety - Products are used when safety is the over-riding concern and when the valve or fitting simply can't fail, it needs to do its job each and every time.
- Reliability - The products last for extended periods of time.
- Ease of Installation - A fundamental premise of all Prochem product lines is the ability to offer ex stock and OEM engineering back up to installed OEM products within the RAN Fleet.

CAPABILITY

- Stainless Steel and CuNi, Pipe, Tube, Fitting & Flanges in support of the RAN Fleet and Hunter Program.
- Extensive range of Valves and Strainers (OEM on both LHD & DDG Programs)
- Pyplok Non-Welded Mechanically Attached Fittings & Flanges (as used on the Anzac Program) available in Stainless Steel, Duplex Alloys and CuNi materials.
- CPV Manufacturing "O-Seal" Fitting and Valve Systems, OEM RAN Fleets.

CERTIFICATIONS / ACCREDITATIONS

Prochem is certified to AS/NZS/ISO 9001 Quality Management System under Lloyd's Register of Quality Assurance.
