

As critical infrastructure becomes a prime target for foreign interference and insider threats, Waitdt Services Security delivers relentless, proactive security to protect sensitive builds.

## Who we are

**Waitdt Services Security (WSS)** is a specialist provider of construction assurance and security observation services supporting high-security government and critical infrastructure projects.

WSS enables Commonwealth agencies and Defence industry partners to protect the integrity of sensitive construction environments through continuous monitoring, early threat detection, and proactive risk management.

## Services

WSS Delivers specialised, Defence-aligned construction security services:

- **Construction Security Observation (CSOs):** NV1/NV2 cleared personnel providing continuous on-site oversight and risk mitigation.
- **Construction Security Plans (CSP):** PSPF-aligned frameworks with site-specific SOPs, built in partnership with clients.
- **Access Control and Site Integrity:** Management of personnel, vehicles, materials and secure zones.
- **Surveillance and Monitoring:** CCTV oversight and behavioural anomaly detection.
- **Incident Management and Reporting:** Real-time escalation and audit-ready documentation.
- **Risk Advisory Services:** Identification and mitigation of construction-phase vulnerabilities.

## Experience where it matters

- WSS has delivered construction assurance and security observation services across new build and refurbishment projects, supporting Defence and broader Commonwealth Security objectives.
- Proven experience in high-security environments in Canberra, including Defence sites and facilities within the Parliamentary Triangle supporting National Intelligence Community stakeholders.
- Extensive project coverage across Victoria, from early works and foundations through to commissioning and defect management.
- Capabilities aligned to key national Defence infrastructure programs, including:
  - Osborne Naval Shipyard expansion (SA)
  - Henderson Defence Precinct (WA)
  - HMAS Stirling upgrades and Submarine Rotational Force-West
  - Regional Maintenance Centres across Sydney, Perth, Darwin and Cairns
