INTRODUCTION

The *VET qualification register for secondary students* (the register) provides schools and registered training organisations (RTOs) with industry advice to guide the selection and delivery of qualifications to secondary students. This advice is provided to enable schools, RTOs and parents to help students choose industry supported qualifications and delivery options which are more likely to lead to successful outcomes, including completing qualifications and effectively transitioning into further training or employment.

The register is of an advisory nature only and needs to be considered alongside training package, accredited course, regulatory and licensing requirements. It is updated annually to maintain currency.

The register includes:

- industry advice to inform and guide qualification/delivery option selection and delivery practices. This advice is provided by the Western Australian industry training councils and other recognised industry bodies as required and complements training package/accredited course requirements, noting the national register of VET, available at training.gov.au, is the source of information on training product delivery and assessment requirements; and
- key regulatory and licensing requirements to help schools and RTOs to determine their capability and capacity to deliver and assess a qualification.

Acronyms used in the register

ACSF	Australian Core Skills Framework	SBA	School-based apprenticeship
AQF	Australian Qualifications Framework	SBT	School-based traineeship
DTWD	Department of Training and Workforce Development	SCSA	School Curriculum and Standards Authority
IBT	Institutional-based training	STEM	Science, technology, engineering and mathematics
ICT	Information and communications technology	VET	Vocational education and training
PATIS	Pre-apprenticeships/pre-traineeships in schools	VIS	SCSA VET industry specific course
RTO	Registered training organisation	WACE	Western Australian Certificate of Education

Currency of qualifications in the register

Qualifications listed in the register are current as at 6 May 2026. The register is released annually in Semester 1 to enable schools time to plan for delivery in the upcoming year, therefore the register will not be current at the point of delivery.

As the register is to provide industry advice on the suitability of qualifications for delivery to secondary school students, the register includes new qualifications where there is no scope to deliver the course at the time of publication, as well as qualifications that are not available for public funding. Not all qualifications on the register are available for delivery in schools in 2027.

DELIVERING VET TO SECONDARY STUDENTS

RTOs delivering vocational education and training (VET) must comply with the 2025 *Standards for RTOs* (the Standards).

Standards for RTOs

The Standards:

- ensure delivery and assessment practices meet training package/accredited course requirements and the outcomes have integrity for employment or further study. The Standards specify that trainers and assessors must comply with training packages, accredited courses and all other requirements, including the Australian Qualifications Framework (AQF);
- specify that trainers and assessors must have the relevant training and assessment credentials as well as current industry skills and knowledge relevant to the training product being provided; and
- ensure students have access to suitable resources and facilities to ensure all training is delivered to the current industry standard.

Training packages/accredited courses

Requirements are specified in relation to assessment, simulated assessment environments and resources and facilities.

Assessment requirements

Each unit of competency/module outlines the assessment requirements to make a determination of competency including performance evidence, knowledge evidence and assessment conditions. Competency has to be demonstrated over a period of time reflecting the scope of the role and the practical requirements of the workplace. Assessor and workplace assessment requirements may also be specified.

Simulated assessment environments

Simulated assessment environments must provide opportunities for students to undertake a task in an environment that genuinely replicates the workplace context.

Resources and facilities

Students must have access to suitable resources and facilities to ensure all training is delivered to the current industry standard.

Volume of learning

Volume of learning is a term in the AQF used to describe the estimated time a typical learner may need to achieve full qualification. Volume of learning is measured in equivalent full-time years (refer to table 1) and considers formal learning activities such as classes, workplace learning and assessments; as well as the time students have to practice skills and reflect on their learning.

Further information

For further information on:

- training package requirements, visit training.gov.au;
- regulatory requirements, including transition and teach out provisions, visit tac.wa.gov.au or asqa.gov.au;
- 2025 *Standards for RTOs*; visit legislation.gov.au, tac.wa.gov.au or asqa.gov.au; and
- AQF, visit aqf.edu.au.

Table 1: AQF volume of learning indicators for certificate level courses ¹			
Certificate I	Certificate II	Certificate III	Certificate IV
6 months – 1 year	6 months – 1 year	1 – 2 years	6 months – 2 years
600 – 1,200 hours	600 – 1,200 hours	1,200 – 2,400 hours	600 – 2,400 hours

¹ The AQF describes qualification levels and their learning outcomes for all regulated and nationally recognised qualifications in Australia.

WORK PLACEMENTS

Student work placement and simulated work placement requirements will be described in the training product and must follow any other applicable requirements including workplace health and safety (WHS). To ensure work placement sites comply with any requirements, schools should:

- consult with the RTO to identify specific requirements for the work placement; and
- conduct work placement risk assessments to ensure employers comply with any mandatory requirements.

DELIVERY OPTIONS

The delivery options for qualifications delivered to secondary students include the following.

Institutional-based training (IBT)

IBT enables students to undertake a nationally recognised qualification without a formal employment arrangement:

- RTO delivery: all delivery and assessment is conducted by an RTO.
- A partnership arrangement, referred to as an auspice arrangement, where schools may deliver and assess training products under the auspice of an RTO. The RTO is responsible for ensuring the delivery and assessment meets the requirements of the nationally recognised training products and the Standards for RTOs. Only RTOs can issue the certification to students completing nationally recognised training.

DTWD (Department of Training and Workforce Development) pre-apprenticeships/pre-traineeships in schools (PATiS)

PATiS are Certificate II programs which provide a pathway from school to related traineeships and apprenticeships. Full time students attend school, train at an RTO and are linked to an employer for work placement. The RTO coordinates the work placement in partnership with the school. PATiS programs may contribute to the Western Australian Certificate of Education (WACE) workplace learning requirements.

School Curriculum and Standards Authority (SCSA) VET industry specific (VIS) courses

SCSA VIS courses package a VET qualification with mandatory workplace learning and may contribute to the WACE requirements. They are delivered under auspice arrangements or by an RTO. The availability of a qualification as a SCSA VIS course is indicated in the industry advice section of the register.

School-based apprenticeships/school-based traineeships (SBA/SBT)

SBAs and SBTs are paid employment-based training programs for full time school students who are generally 15 years of age and over. To be an SBA/SBT, a student must enter into a training contract with an employer with their school's agreement. Under these arrangements a student is both a full-time school student and a part-time employee. Completed units of competency of the SBA/SBT are included in the students' WACE.

Further information

For further information on:

- SBAs, SBTs and PATiS, visit dtwd.wa.gov.au/training-providers-and-schools/vet-schools; and
- SCSA VIS courses, visit scsa.wa.edu.au.

FUNDING

The register is broader than qualifications funded by DTWD and therefore some qualifications listed in the register **may not** be funded. However, the register does inform the *VET Delivered to Secondary Students Funded Course list*.

For information on qualifications funded for VET Delivered to Secondary Students visit [VET delivered to secondary students: funded courses list](#) on WA.gov.au.

HOW TO USE THE REGISTER

The register is arranged in alphabetical order by industry area. Within each industry area, qualifications are listed by qualification level and then alphabetical order. The following information is provided for each qualification, as per the example provided below.

QUALIFICATION			AVAILABLE DELIVERY OPTIONS				INDUSTRY ADVICE
Code	Title	Outline	IBT	PATiS	SBA	SBT	Further advice
MEM20105	Certificate II in Engineering 	This qualification develops the employability and technical skills required to pursue an apprenticeship in an engineering trade.	Yes	Yes	No	Yes	This qualification is also available as a SCSA VIS course. If this qualification cannot be undertaken with the appropriate workplace learning, industry recommends MEM20413 <i>Certificate II in Engineering Pathways</i> as an alternative.

Industry advice indicating pathway options and areas of concern (where applicable)

Qualification details

Delivery options

Qualification code, title and outline

The national qualification code, title and outline are provided for each qualification. It is important that schools check that partnering RTOs have the latest version of the qualification on their scope of delivery². Students commencing a qualification should be enrolled in the most current version of the qualification as listed on training.gov.au.

This icon indicates that the qualification contains units of competency that develop science, technology, engineering and mathematics (STEM) skills.

Available delivery options

The available delivery options for a qualification are indicated. Options include:

- IBT: institution-based training;
- PATiS: pre-apprenticeships/pre-traineeships in schools;
- SBA: school-based apprenticeship; and
- SBT: school-based traineeship.

² To identify the qualifications an RTO is scoped/approved to deliver go to training.gov.au, enter the RTO's name into the quick search facility, then select the 'Summary' tab, then select 'Scope Overview'.

Colour codes

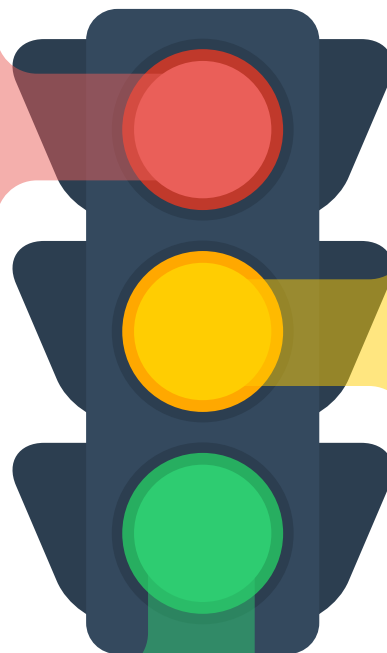

Each qualification is assigned a colour based on industry's support for the delivery of the qualification to secondary students. A risk rating has also been incorporated into the traffic light colours to indicate the level of concern associated with delivering qualifications to secondary students and to further explain industry rationale for support and non-support, as outlined below:

- **Green (low risk):** little to no concern regarding delivery to secondary students. Delivery is safe, stable, or appropriate to proceed with minimal issues expected.
- **Orange (medium risk):** some concern, with delivery supported only under specific conditions, limitations, or advice. Issues are possible and require conditions, monitoring, or controls to reduce negative impacts.
- **Red (high risk):** significant concern, with delivery not supported for secondary students. Problems are likely or consequences are severe, so the activity is not recommended or should not proceed.

These qualifications are assigned a red colour and are considered **high risk** and not supported by industry for delivery to secondary students due to one or more reasons outlined below:

- Licensing and/or age restrictions may prevent students from legally undertaking workplace tasks or completing the qualification while enrolled at school.
- Industry skill and experience requirements exceed what can reasonably be achieved by secondary students to meet competency and workplace standards.
- The inherent high-risk nature of the qualification or associated occupation poses significant health, safety, or legal concerns for school-aged learners.
- The qualification must be completed under a formal apprenticeship or traineeship training contract and is not available through School Based Apprenticeships or Traineeships (SBA/SBT).

These qualifications are assigned a green colour and considered **low risk** when they are supported by industry for delivery to secondary students as no industry concerns or delivery restrictions have been identified

These qualifications are assigned an orange colour and are considered **medium risk** and supported for delivery to secondary school students. While industry supports these qualifications, specific conditions, advice, or limitations must be considered to ensure appropriate and safe delivery:

- The qualification is restricted to Aboriginal and Torres Strait Islander students, in line with its intended purpose and industry expectations.
- Licensing and/or age restrictions may prevent students from completing the qualification while enrolled at school.
- Delivery is only suitable where schools have access to appropriate facilities, equipment, and training resources that accurately replicate real workplace conditions and performance standards.
- Some elective units may be unsuitable for secondary students due to safety, complexity, licensing, or workplace requirements and must be carefully selected.
- Preferred or restricted delivery modes may apply. For example, delivery may only be supported through a School-Based Traineeship (SBT) to ensure students complete sufficient workplace learning and develop practical skills to an industry-endorsed standard.

Where applicable, further advice is provided by industry in relation to:

- an industry preferred qualification or delivery option;
- the availability of a qualification as a SCSA VIS course (mandatory workplace learning is required);
- specific conditions, limitations or advice; and/or
- why delivery options are not supported or are high risk.

QUALIFICATIONS BY INDUSTRY AREA

Aeroskills

For further information on the aeroskills industry, go to ueea.org.au.

QUALIFICATION			AVAILABLE DELIVERY OPTIONS				INDUSTRY ADVICE
Code	Title	Outline	IBT	PATiS	SBA	SBT	Further advice
MEA20418	Certificate II in Aeroskills 	This qualification develops the knowledge and skills to repair and overhaul a limited range of aircraft components or perform simple repairs on some structural components.	Yes	Yes	No	Yes	
MEA40618	Certificate IV in Aeroskills (Avionics) 	This qualification develops the knowledge and skills to perform scheduled inspections, fault diagnosis, repair and modify aircraft electrical, instrument and radio systems and components.	No	No	Yes	No	
MEA40718	Certificate IV in Aeroskills (Mechanical) 	This qualification develops the knowledge and skills to perform scheduled inspections, fault diagnosis, and the repair and modification of airframes and aircraft engines, including propellers.	No	No	Yes	No	
MEA41322	Certificate IV in Aeroskills (Structures) 	This qualification develops the knowledge and skills to repair and modify aircraft structures.	No	No	Yes	No	

Agriculture/Horticulture

For further information on the agriculture/horticulture industry, go to fftitrainingcouncil.com.au.

QUALIFICATION			AVAILABLE DELIVERY OPTIONS				INDUSTRY ADVICE
Code	Title	Outline	IBT	PATiS	SBA	SBT	Further advice
AHC10222	Certificate I in Agriculture 	This qualification develops entry level knowledge and skills to prepare for work and training in the agriculture, horticulture and conservation and land management industry sectors.	Yes	No	No	No	This qualification is also available as a SCSA VIS course. Industry recommends AHC21216 <i>Certificate II in Rural Operations</i> as an alternative.
AHC10124	Certificate I in Conservation and Ecosystem Management 	This qualification develops entry level knowledge and skills to prepare for work and training in conservation and land management.	Yes	No	No	No	Industry recommends AHC21024 <i>Certificate II in Conservation and Ecosystem Management</i> as an alternative.
AHC10322	Certificate I in Horticulture 	This qualification develops entry level knowledge and skills to prepare for work and training in the horticulture, nursery and gardening industry sectors.	Yes	No	No	No	Industry recommends AHC20422 <i>Certificate II in Horticulture</i> as an alternative.
AHC10422	Certificate I in Permaculture 	This qualification develops entry level knowledge and skills to prepare for work in the permaculture industry.	Yes	No	No	No	Industry recommends AHC20422 <i>Certificate II in Horticulture</i> as an alternative.
AHC20122	Certificate II in Agriculture 	This qualification develops the knowledge and skills to work in a range of agricultural settings, with electives in livestock production, cropping, horse breeding, beekeeping, production horticulture, shearing and irrigation.	Yes	No	No	Yes	This qualification is also available as a SCSA VIS course. Industry recommends AHC21216 <i>Certificate II in Rural Operations</i> as an alternative. Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting.

QUALIFICATION			AVAILABLE DELIVERY OPTIONS				INDUSTRY ADVICE
Code	Title	Outline	IBT	PATiS	SBA	SBT	Further advice
AHC20520	Certificate II in Arboriculture 	This qualification develops the knowledge and skills to undertake ground based tree work activities.	Yes	No	No	Yes	Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting.
AHC21024	Certificate II in Conservation and Ecosystem Management 	This qualification further develops the knowledge and skills to work in conservation and land management with electives in Indigenous land management, conservation earthworks, lands, parks and wildlife, or natural area management.	Yes	No	No	Yes	Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting.
AHC20422	Certificate II in Horticulture 	This qualification develops the knowledge and skills for entry level work in horticulture, with electives in tree care, nursery, turf and irrigation.	Yes	No	No	Yes	Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting.
AHC21624	Certificate II in Landscaping 	This qualification develops the knowledge and skills for entry level work in landscaping.	Yes	Yes	No	Yes	Industry recommends AHC20422 <i>Certificate II in Horticulture</i> as an alternative. Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting.
AHC20724	Certificate II in Nursery Operations 	This qualification develops the knowledge and skills for entry level work in the nursery industry, including production nursery assistant, nursery worker, retail nursery assistant and retail nursery maintainer.	Yes	Yes	No	Yes	Industry recommends AHC20422 <i>Certificate II in Horticulture</i> as an alternative. Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting.
AHC20624	Certificate II in Parks and Gardens 	This qualification develops the knowledge and skills for entry level work in the maintenance and care of parks and gardens.	Yes	Yes	No	Yes	Industry recommends AHC20422 <i>Certificate II in Horticulture</i> as an alternative. Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting.

QUALIFICATION			AVAILABLE DELIVERY OPTIONS				INDUSTRY ADVICE
Code	Title	Outline	IBT	PATiS	SBA	SBT	Further advice
AHC21722	Certificate II in Permaculture 	This qualification develops a range of knowledge and skills for entry level work in permaculture.	Yes	No	No	No	Industry recommends schools consider AHC20422 <i>Certificate II in Horticulture</i> as an alternative. Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting.
AHC20324	Certificate II in Production Horticulture 	This qualification develops the knowledge and skills for entry level work in production horticulture, such as orchards and vegetable growing.	Yes	No	No	Yes	Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting. Industry recommends AHC21216 <i>Certificate II in Rural Operations</i> as an alternative.
AHC21216	Certificate II in Rural Operations 	This qualification develops the knowledge and skills to work in a range of agencies and industries in rural and regional Australia. This includes electives in local government, tourism, hospitality, transport, construction, community services, information technology and metals.	Yes	No	No	Yes	This qualification is also available as a SCSA VIS course.
AHC21325	Certificate II in Shearing 	This qualification develops the knowledge and skills to work as a shearer.	Yes	No	No	No	Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting.
AHC20919	Certificate II in Sports Turf Management 	This qualification develops the knowledge and skills to work as a greenkeeper's assistant.	Yes	Yes	No	Yes	Industry recommends AHC20422 <i>Certificate II in Horticulture</i> as an alternative. Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting.
AHC21425	Certificate II in Wool Handling 	This qualification develops the knowledge and skills to work in wool handling.	Yes	No	No	Yes	Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting.

QUALIFICATION			AVAILABLE DELIVERY OPTIONS				INDUSTRY ADVICE
Code	Title	Outline	IBT	PATiS	SBA	SBT	Further advice
AHC21824	Certificate II in Protected Horticulture 	This qualification develops entry level knowledge and skills to work in support roles in protected horticulture. Protected horticulture relates to fruit and vegetables grown in greenhouse conditions.	Yes	No	No	No	Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting.
AHC33125	Certificate III in Advanced Wool Handling 	This qualification develops the knowledge and skills to undertake a specialist wool handling role.	Yes	No	No	No	Industry recommends AHC21425 <i>Certificate II in Wool Handling</i> as an alternative. Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting.
AHC30122	Certificate III in Agriculture 	This qualification develops introductory knowledge and skills in agriculture and farming, with electives in livestock production, grain cropping, production horticulture and machinery operations.	Yes	No	No	No	Industry recommends AHC32822 <i>Certificate III in Rural Operations</i> as an alternative. Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting.
AHC30224	Certificate III in Dairy Production 	This qualification develops the knowledge and skills to work as a dairy farm worker.	Yes	No	No	No	Industry recommends AHC32822 <i>Certificate III in Rural Operations</i> as an alternative. Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting.
AHC30824	Certificate III in Arboriculture 	This qualification develops the knowledge and skills to perform a range of arboriculture activities including shaping and canopy management and tree dismantling and removal.	Yes	No	Yes	No	Delivery is preferred via SBA to ensure students undertake sufficient practical experience to an industry standard. Licensing age restrictions may impact on the ability of students to complete this qualification while at school.
AHC31024	Certificate III in Parks and Gardens 	This qualification develops the skills and knowledge for trade level roles in the parks and gardens industry including gardener, greenkeeper and grounds person.	Yes	No	Yes	No	Delivery is preferred via SBA to ensure students undertake sufficient practical experience to an industry standard.

QUALIFICATION			AVAILABLE DELIVERY OPTIONS				INDUSTRY ADVICE
Code	Title	Outline	IBT	PATiS	SBA	SBT	Further advice
AHC31824	Certificate III in Beekeeping 	This qualification develops the knowledge and skills to work as a beekeeper.	Yes	No	No	Yes	Delivery is only supported via SBT to ensure students undertake sufficient practical experience to an industry standard. Industry recommends schools consider AHC20122 <i>Certificate II in Agriculture</i> as an alternative.
AHC31424	Certificate III in Conservation and Ecosystem Management 	This qualification develops the knowledge and skills to work in the conservation and ecosystem management industry.	Yes	No	No	No	Delivery is not supported due to the: • skill level and experience required to complete the qualification to an industry standard; and • high risk nature of the qualification/occupation. Industry recommends AHC21024 <i>Certificate II in Conservation and Ecosystem Management</i> as an alternative.
AHC30722	Certificate III in Horticulture 	This qualification develops the knowledge and skills to work in horticulture, with electives in tree care, nursery, turf and irrigation.	Yes	No	No	No	Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting. Industry recommends AHC20422 <i>Certificate II in Horticulture</i> as an alternative.
AHC30921	Certificate III in Landscape Construction 	This qualification develops the knowledge and skills to work in landscape construction.	Yes	No	Yes	No	Delivery is only supported via SBA to ensure students undertake sufficient practical experience to an industry standard. Industry recommends AHC20422 <i>Certificate II in Horticulture</i> or AHC21621 <i>Certificate II in Landscaping</i> as an alternative.
AHC31124	Certificate III in Nursery Operations 	This qualification develops the knowledge and skills to work in nursery production or retail nursery.	Yes	No	Yes	No	Industry recommends AHC20422 <i>Certificate II in Horticulture</i> , as an alternative. Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting.
AHC30422	Certificate III in Pork Production 	This qualification develops the knowledge and skills to work as a piggery attendant.	Yes	No	No	No	Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting. Industry recommends AHC21216 <i>Certificate II in Rural Operations</i> as an alternative.
AHC30624	Certificate III in Production Horticulture 	This qualification develops the knowledge and skills to work in production horticulture.	Yes	No	No	No	Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting. Industry recommends AHC20422 <i>Certificate II in Horticulture</i> , as an alternative.

QUALIFICATION			AVAILABLE DELIVERY OPTIONS				INDUSTRY ADVICE
Code	Title	Outline	IBT	PATiS	SBA	SBT	Further advice
AHC31324	Certificate III in Sports Turf Management 	This qualification develops the knowledge and skills to work as a greenkeeper.	Yes	No	Yes	No	Delivery is only supported via SBA to ensure students undertake sufficient practical experience to an industry standard. Industry recommends schools consider AHC20422 <i>Certificate II in Horticulture</i> as an alternative.
AHC32424	Certificate III in Irrigation Technology 	This qualification develops the knowledge and skills to work as a trade technician in irrigation and horticulture related roles.	Yes	No	No	Yes	Delivery is preferred via SBT to ensure students undertake sufficient practical experience to an industry standard. Industry recommends AHC20422 <i>Certificate II in Horticulture</i> as an alternative.
AHC33025	Certificate III in Wool Clip preparation	This qualification develops the knowledge and skills for wool producers to class their own wool.	Yes	No	No	No	Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting.

Animal care

For further information on the animal care industry, go to ffittrainingcouncil.com.au.

QUALIFICATION			AVAILABLE DELIVERY OPTIONS				INDUSTRY ADVICE
Code	Title	Outline	IBT	PATiS	SBA	SBT	Further advice
ACM10121	<i>Certificate I in Animal Care Industry Pathways</i> 	This qualification develops introductory knowledge and skills for further learning in the animal care industry.	Yes	No	No	No	Industry recommends ACM20121 <i>Certificate II in Animal Care</i> as an alternative.
ACM20121	<i>Certificate II in Animal Care</i> 	This qualification develops the knowledge and skills for entry level and support roles in the animal care industry, in workplaces such as animal shelters, boarding/day care facilities, sanctuaries and veterinary clinics.	Yes	No	No	Yes	Industry recommends ACM20121 <i>Certificate II in Animal Care</i> as the preferred pathway to the industry.
ACM30122	<i>Certificate III in Animal Care Services</i> 	This qualification develops the knowledge and skills required to work in a broad range of roles in animal care facilities and services, including boarding/day care, breeding, shelters/holding centres, pet grooming, pet sitting and other animal businesses.	Yes	No	No	No	Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting.
ACM30321	<i>Certificate III in Wildlife and Exhibited Animal Care</i> 	This qualification develops the knowledge and skills to work in a range of animal care functions in a zoo, wildlife sanctuary, aquaria or other facility where animals are cared for or exhibited.	Yes	No	No	No	Delivery is not supported due to the: • skill level and experience required to complete the qualification to an industry standard; and • high risk nature of the qualification/occupation. Industry recommends ACM20121 <i>Certificate II in Animal Care</i> as an alternative.
ACM40418	<i>Certificate IV in Veterinary Nursing</i> 	This qualification develops the knowledge and skills to work as a veterinary nurse.	Yes	No	No	No	Delivery is not supported due to the: • skill level and experience required to complete the qualification to an industry standard; and • high risk nature of the qualification/occupation. Industry recommends ACM20121 <i>Certificate II in Animal Care</i> as an alternative.

Aquaculture/Seafood

For further information on the aquaculture/seafood industry, go to fftitrainingcouncil.com.au.

QUALIFICATION			AVAILABLE DELIVERY OPTIONS				INDUSTRY ADVICE
Code	Title	Outline	IBT	PATiS	SBA	SBT	Further advice
SFI20119	Certificate II in Aquaculture 	This qualification develops the knowledge and skills to work as an aquaculture attendant to support the care of aquatic stock in the aquaculture sector of the seafood industry.	Yes	No	No	Yes	Delivery is preferred via IBT or SBT but ensure students both instances undertake sufficient practical experience to an industry standard.
SFI20219	Certificate II in Fishing Operations 	This qualification develops the knowledge and skills for entry level work as a fisher or general deckhand.	Yes	No	No	Yes	Delivery is preferred via SBT but ensure students both instances undertake sufficient practical experience to an industry standard.
SFI20319	Certificate II in Seafood Post Harvest Operations 	This qualification develops the knowledge and skills to work in seafood processing or sales.	Yes	No	No	No	Industry recommends SFI20219 Certificate II in Fishing Operations as an alternative. Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting.
SFI20419	Certificate II in Fisheries Compliance Support 	This qualification develops the knowledge and skills to work as compliance support for the management of fisheries.	Yes	No	No	No	Industry recommends SFI20219 Certificate II in Fishing Operations as an alternative. Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting.
SFI30119	Certificate III in Aquaculture 	This qualification develops the knowledge and skills to work as an aquaculture attendant or technician for the care of aquatic stock.	Yes	No	No	No	Industry recommends Certificate II in Aquaculture. Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting.
SFI30219	Certificate III in Fishing Operations 	This qualification develops the knowledge and skills to work as a senior deckhand or occupational diver on a commercial fishing vessel.	Yes	No	No	No	Industry recommends SFI20219 Certificate II in Fishing Operations as an alternative. Delivery is supported where there is access to suitably equipped and staffed training facilities that accurately reflect the conditions and performance of a real workplace setting.

Automotive
