

Thank you for your purchase of a piece of memorial jewellery. This jewellery is a precious keepsake and should be treated with great care. Please read the following instructions carefully.

General Care

- Remove before sleeping, showering, swimming or exercise.
- Avoid heat over 100°C and do not solder.
- Clean with a soft cloth only.
- Do not pull the chain or rub the pendant against hard surfaces.

Gold & Silver Jewellery

- Gold and silver can scratch and become misshapen with daily use.
- Avoid contact with chemicals such as water, perfumes, creams or cleaning products.
- Store separately to avoid pieces scratching each other.
- Rings wear faster than other jewellery due to constant contact with hard surfaces.

Gemstones

- Natural gemstones may have variations in colour, shape or small impurities this is a natural property, not a defect.
- No two stones are identical; this makes each piece unique.
- Gemstones are not as durable as diamonds and can be damaged by general daily wear.
- Always remove gemstone jewellery before physical activities.

Leather Bracelet

- Leather bracelets are handmade using genuine leather and colours may vary slightly.
- Light-coloured leather is more sensitive to dirt than dark colours.
- Avoid exposure to direct sunlight or water this may cause fading or drying of the leather.
- If the leather becomes damp, allow it to dry naturally. A neutral leather balm will help retain and nourish the material.

Important Reminders

- Consider retaining a small portion of your loved one's ashes for possible future use.
- If your keepsake has been closed using glue, do not attempt to reopen it.
- Handle with care, this keepsake holds irreplaceable meaning.

We hope this piece of jewellery helps you keep your loved one close.
