A permit issued by the Board is required before any monumental work can be carried out. Please contact an MCB licensed mason to arrange this. Monumental works include the erection or alteration to headstone, plaque, inscription, kerbs, enclosures and any other fixture commemorating a grave.

Unauthorised monumental installations (works without a permit) will be removed. The MCB recommends that consumers compare the products, services and quality on offer, and obtain an itemised quote before purchase.

Disclaimer: This list is NOT an endorsement by the MCB of the services that these companies provide.
