

Summary of current situation

What was achieved this week:

- A total of 2466 inspections have been undertaken since the start of our inspection blitz in early March, resulting in 113 infringements issued.
- The Fuel Industry Operations Group continues to meet. No major supply disruptions have been reported by industry participants.
- Fuel supplies are stable for August and September and fuel station stockouts remain low across the State.
- There is more fuel in WA now than at the same time last year.
- We're continuing to work actively with industry to ensure WA has access to the most detailed supply chain information in the country.
- Over one million Western Australians have claimed the \$100 Fuel Support Payment. More information at wa.gov.au/FuelPayment

National Fuel Security Plan - Level 2

Keeping Australia Moving

Fuel supply continues to operate effectively, but localised supply disruptions are occurring. Federal and State Governments are taking precautionary actions to shore up supply.

Using legislative provisions to ensure timely information from industry.

Considering regulatory reforms to **improve freight efficiency.**

Monitoring and reporting fuel station supply, including diesel.

Monitoring **economic impacts on fuel-exposed industries.**
