

CHC HELICOPTER

GLOBAL LEADER IN AVIATION SERVICES

Defence and government agencies need an aviation partner who can operate safely in demanding environments, integrate seamlessly with multiple stakeholders, and deliver reliable support for critical missions 365 day a year.

For almost 80 years, CHC has been doing just that: delivering **safe, reliable, and effective** aviation services, including:

- Personnel transport
- Search and Rescue (SAR)
- Emergency Medical Services (EMS)
- Maritime and over-water operations
- Maintenance, Repair and Overhaul (MRO) through our Heli-One division

Combining **global experience** with a **strong Australian footprint**, we help government, defence and energy organisations achieve mission objectives in **complex** and **high-consequence environments**.

Proven at Scale:

100+

Aircraft
operated worldwide

37

Bases worldwide (including
19 in Australia)

2,500

Employees worldwide

Why Organisations Trust CHC with their Most Critical Missions

- **Industry-leading safety standards** backed by mature assurance processes and regulatory expertise.
- Heavy, super-medium and medium helicopters **tailored to mission requirements**, including range, speed, payload and cabin capacity.
- **30+ years delivering 24/7 emergency response** and other mission-critical helicopter operations.
- **Proven success in complex multi-agency operations.**
- Global scale delivered locally, with the **supply chain strength, technical resources** and **industry relationships** to support operational continuity.

Capability Highlights

- Australia's **only approved operator** capable of performing **complex auto-hover procedures** to winch patients or stretchers from the water **at night**.
- Advanced mission systems and night vision goggle operations for low-light environments.
- Extensive experience in **complex over-water operations**.
