

BRIDGING THE GAP BETWEEN ROBOTICS TECHNOLOGY AND OPERATIONAL CAPABILITY

1

PRODUCTS & CAPABILITIES

- Operational field robotics
- Scalable multi-platform autonomy
- Platform-agnostic intelligent mission systems
- Supply and integration of deployable wheeled, tracked and legged robotic platforms
- Configurable sensing and mission payloads

2

DISCRIMINATORS

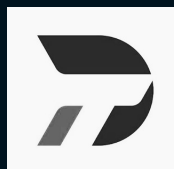

- Reduced personnel exposure to hazardous environments
- Consistent mission execution and supervision across multiple platforms
- Freedom from single-platform or OEM lock-in
- Fit-for-purpose platforms supported by a scalable supply chain
- Mission-specific sensing and payload integration
- Configurable for logistics, sensitive cargo distribution, CASEVAC and ISR missions

QUALITY CREDENTIALS & CONTACT

QUALITY & DEFENCE CREDENTIALS

- Defence Industry Security Program (DISP) Level 2 SECRET Certified (Australia)
- CMMC Cleared (United States)
- NIST 800-171
