

DARCO INDUSTRIES DEFENCE QUAD CHART 2026

Products & Capabilities

- **Thermal Insulation Covers:** Custom exhaust blankets, turbo wraps, and heat shields for temperature control and fire protection in marine engine rooms.
- **Acoustic Insulation:** Marine-certified acoustic panels and composites for noise and vibration reduction on vessels and offshore equipment.
- **High-Temperature Glass Fabrics:** E-glass textiles, refractory materials, and needlemat for piping insulation and heat shielding.
- **Fire Protection & Safety:** Firesleeves, welding blankets etc

Discriminators

Since 2010, Darco Industries has been an Australian-owned importer and wholesaler delivering high-performance thermal, fire, and acoustic solutions to the Defence sector, strategically located near the Henderson Defence Precinct in Western Australia, providing fast, reliable sovereign supply chain capabilities.

- Inventory of over 400 insulation materials for fire, heat & noise.
- **Global Partnerships:** Exclusive access to leading manufacturers, including Valmeira Glass and 3M Nextel for advanced composite ultra-high-temperature materials.
- **Technical Expertise:** Expert support and solutions for complex high-temperature applications.

Customers & Partners

In the defence sector, Darco Industries is currently a sub-tier supplier to tiers 2, 3 & lower. Servicing Defence Prime Contractors ASC, Austal, Babcock, BAE Systems, Thales. Airbus Australia and Rheinmetall. We are registered with NATO and JOSCAR-AU

Quality Standards

Darco Industries provides high-performance thermal, fire, acoustic and advanced composite materials to meet the high demands of marine defence and shipbuilding.

- AS Australian Standards
- Mil-Spec Standards: Military Specifications
- IMO International Maritime Organization Compliance
- MED Marine Equipment Directive Certified
- AS1072 Aerospace Certified
