

PRODUCT/CAPABILITIES

- The Geng updated Knock Down Target provides a target which easily and quickly assembles without tools.
- It has no metal parts and so does not generate nor reflect bullet splash.
- It is durable and can sustain hits without failure and with minimal debris.
- It reacts to 9mm, 5.56mm & SRTA rounds.
- It packs flat for easy storage and transport

This is the well established Knock Down Target that has been used around Australia and overseas, but with a new plastic pivot and simpler base.
