

Products and Services- Supply

- Calibration of Pressure, Electrical, Temperature, Torque and Dimensional measurement and test equipment.
- Calibration of aviation specific (GSE— Ground Support Equipment).
- Calibration of industrial instrumentation (Pressure, Temperature transmitters, control Valves).
- Supply of High quality test equipment for technicians, engineers and trade-people.
- Electrical Test equipment, eg multimeters, multifunction testers, process calibrators, loggers.
- Torque tools, eg torque wrenches, torque testers, torque screwdrivers
- Dimensional equipment, eg micrometers, vernier calipers, thickness testers, height gauges.
- Temperature equipment, eg thermometers, infrared guns, Thermal imaging cameras, environmental loggers.
- Pressure Equipment, eg, Pressure gauges, digital and analogue, test and industrial gauges, Pressure transducers, calibrators.

Capabilities

- Onsite calibration Services utilizing our Mobile Calibration Laboratory (MOCAL)
- Calibration of above equipment, eg Pressure, Electrical, Temperature, Torque, Dimensional.
- Calibration of specialist tooling used in aviation and transport including crimping tools, cable tensionometers
- Consulting services for measurement and testing requirements
- Industrial Instrumentation onsite calibration

Key Differentiators

- Onsite calibration Services utilizing our Mobile Calibration Laboratory (MOCAL)
- Quick Turnarounds
- Competent Staff (40 years combined calibration experience)
- NATA Accredited Fixed and Mobile Laboratory

Key Sectors Served

- Aviation, Defence, Mining, Oil and Gas, Food and beverage, Engineering services, Transport, Marine, Manufacturing.

Key Clients include

- Royal Australian Airforce, BHP, FMG, Wood Group, Water Corporation, UGL, Steel Mains, Royal Flying Doctors, Harvey Industries.

BHP

Equipment Suppliers

- Fluke - Measurement and Test Equipment
- Mitutoyo - Dimensional Equipment
- Norbar - Torque tooling
- Additel - Process Calibration Equipment
- Metrel - Electrical Test equipment
- Wika - Pressure and Temperature instrumentation

Location

- West Australian Owned and Operated
- Local competent staff and direct access to company directors
- Favourable logistics, onsite and pickup/drop off options

Quality Systems

- ISO 17025 (NATA) Accredited
- Client audits welcome
