

Help shape the future of play in WA

Every voice counts

We're creating Australia's first Government-led Play Strategy and want to hear from people across Western Australia.

Children have unique and valuable perspectives on their lives and play. We want to hear directly from children because they are the experts in their own lives.

We want to hear from adults too, whether you're a parent, carer, kin, community member, or professional whose work relates to play in any way.

Together, your experiences and ideas will help shape the future of play in WA.

**Have your say.
Help shape play in WA.
